AUDITOR'S REPORT

Quincy, Mass., Mar. 1, 1920.

To the City Councillors, Quincy, Mass.

In accordance with the ordinance of the city, I submit the annual report of my department, showing in detail the receipts and expenditures of each department.

Also several statements showing the financial condition of the city at the close of the financial year, December 31, 1919.

HENRY O. FAIRBANKS, *City Auditor.*

CITY OF QUINCY, IN COUNCIL

No. 46

Ordered,

February 13, 1919.

That the several sums named herein be and are hereby appropriated for the payment of the expenses of the City of Quincy, for the financial year beginning January 1, 1919 and ending December 31, 1919, to be expended by and under the direction of the several officers or boards as herein designated, in accordance with the provisions of Chapter 719, of the Acts of 1913.

That the appropriation for Water Maintenance and Clerical be paid from Water Receipts.

That the appropriation for Sewer Maintenance and Clerical be paid from Sewer Assessment Receipts.

REPORT OF THE CITY SOLICITOR

Hon. Joseph L. Whiton, Mayor,
City of Quincy, Mass.

Dear Sir: I submit herewith my report as City Solicitor for the year 1919.

LEGISLATIVE WORK

At your request I prepared petitions for the legislation set forth in the following Special Acts of the Legislature of 1919, and attended the legislative hearings relating to the same:—

Chapter 13

AN ACT RELATIVE TO THE TENURE OF OFFICE OF THE CITY CLERK OF QUINCY.

Be it enacted, etc., as follows:

SECTION 1. The city clerk of Quincy, and his successors in office, shall hold office continuously during good behavior unless incapacitated by physical or mental disability from performing the duties of the office: provided, however, that the city council of said city may, subject to the provisions of law governing the removal of civil service employes, remove any incumbent of said office.

SECTION 2. This act shall take effect upon its acceptance by the city council of said city, with the approval of the mayor, provided that such acceptance and approval occur before January first, nineteen hundred and twenty. (Approved February 12, 1919.)

Chapter 25

AN ACT TO ABOLISH THE BOARD OF HEALTH AND INSPECTOR OF MILK OF THE CITY OF QUINCY AND TO CREATE THE OFFICE OF HEALTH COMMISSIONER OF SAID CITY.

Be it enacted, etc., as follows:

SECTION 1. The board of health and the office of inspector of milk of the city of Quincy are hereby abolished, and in place thereof and in succession thereto there is hereby established the office of health commissioner of said city. The health commissioner shall be vested with all the powers and duties heretofore exercised and performed by the board of health and inspector of milk of said city and that may hereafter be given to or imposed upon boards of health or inspectors of milk of cities. He may appoint such deputy commissioners, agents, and inspectors from time to time as he may deem necessary, and he may delegate to them from time to time such of his powers and duties as he may designate.

SECTION 2. The health commissioner shall be appointed annually by the mayor without confirmation by the city council, and may be removed at any time by the mayor on written notice filed with the city clerk.

SECTION 2. This act shall take effect upon its passage. (Approved February 19, 1919.)

Chapter 27**AN ACT RELATIVE TO FILLING THE OFFICE OF MAYOR OF THE CITY OF QUINCY DURING THE TEMPORARY ABSENCE OR DISABILITY OF THE MAYOR AND TO SUCCESSION TO SAID OFFICE IN CASE OF VACANCY.**

Be it enacted, etc., as follows:

SECTION 1. Whenever by reason of illness or absence from the state or other cause the mayor of the city of Quincy shall be unable to perform the duties of his office, the same shall be performed by the president of the city council; and if the president of the city council for like reason is unable to perform the said duties, the mayor may by a writing filed in the office of the city clerk, designate the city solicitor, the city treasurer or the commissioner of public works to act as mayor; and if the mayor fails to make such designation, then the first named of the last three above mentioned officers, then performing the duties of his office, shall act as mayor. The person upon whom the said duties devolve shall be called "acting mayor" and shall possess the power of mayor only in matters not admitting of delay. He shall have no power to make permanent appointments or removals nor to approve or disapprove any ordinance, order, resolution or vote until within twenty-four hours of the time when it would take effect without the approval of the mayor.

SECTION 2. Whenever there is a vacancy in the office of mayor the president of the city council shall act as mayor and possess all the rights and powers of mayor, except that he shall have no power to make permanent appointments to office, or to remove any person from office, unless authorized thereto by vote of the council.

SECTION 3. So much of section twenty-six of chapter two hundred and sixty-seven of the General Acts of nineteen hundred and fifteen as relates to the performance of the duties of mayor by the president of the council in the absence of the mayor or in case of his temporary inability to perform his duties, shall not apply to the city of Quincy.

SECTION 4. This act shall take effect upon its passage. (Approved February 19, 1919.)

Chapter 134**AN ACT AUTHORIZING THE CITY OF QUINCY TO ESTABLISH A HOSPITAL.**

Be it enacted, etc., as follows:

SECTION 1. The city of Quincy is hereby authorized to construct and maintain a hospital for the reception, care and treatment of persons who by reason of misfortune or poverty may require temporary medical or surgical relief and treatment for sickness or injuries.

SECTION 2. Subject to such rules and regulations as the city council of said city may establish by ordinance the expenditure of all moneys appropriated for, or given or bequeathed to the said hospital, the general management, care and control of the hospital and all its branches, together with all buildings and grounds connected therewith, the equipment thereof, and the authority to employ and remove superintendents, nurses, attendants, and all other agents and employees, shall be vested in a board of managers consisting of five persons. The said board shall constitute one of the administrative boards of the city, and the members shall be appointed by the mayor without confirmation by the city council. The mayor may remove at any time any member of the board by a written notice to the person so removed, giving his reason therefor; and a copy of said notice

shall be filed in the office of the city clerk. Upon the establishment of the hospital, the mayor shall appoint the members of said board for terms expiring on the first Monday of January in the first, second, third, fourth and fifth years following such establishment, respectively, and thereafter, as the term of a member expires, the mayor shall appoint a successor for the term of five years, from the first Monday of January in the year of appointment.

SECTION 3. The said city may acquire lands and buildings for hospital purposes by gift, bequest or devise, by purchase or by right of eminent domain. Whenever land is taken by the city for the said purposes by right of eminent domain it shall be taken in the manner in which land may be taken by cities for public playgrounds, and any person whose property is so taken shall have the same remedies against the city for the recovery of compensation therefor and damages on account of the taking which the owner of land taken for public playgrounds may have against a city for land taken for public playgrounds.

SECTION 4. The city of Quincy may accept money or other property given, bequeathed or devised to it for the benefit of said hospital, and the principal and income thereof shall be held and applied according to the terms of the gift, devise or bequest.

SECTION 5. This act shall take effect upon its passage. (Approved April 12, 1919.)

In addition to the foregoing the Legislature enacted the following General Acts and Resolves affecting Quincy:

Chapter 162

AN ACT TO PROVIDE FOR FURTHER DEVELOPMENT OF THE PORT OF BOSTON BY THE COMMISSION ON WATERWAYS AND PUBLIC LANDS.

Under the provisions of this Act the Commonwealth appropriated \$100,000 for expenses in connection with the taking by the Commonwealth of land and flats on or near Haywards Creek in the city of Quincy and town of Braintree, and for the improvement of said land and flats.

Chapter 238

AN ACT TO PROVIDE FOR THE COMPLETION BY THE METROPOLITAN PARK COMMISSION OF NEPONSET BRIDGE OVER NEPONSET RIVER BETWEEN THE CITIES OF BOSTON AND QUINCY.

Under the provisions of this Act the Metropolitan Park Commission was authorized to complete the construction of Neponset Bridge between Boston and Quincy.

Chapter 258

AN ACT TO AUTHORIZE THE MAINTENANCE OF A TEMPORARY BRIDGE OVER THE NEPONSET RIVER IN THE CITIES OF QUINCY AND BOSTON FOR A PERIOD OF FIVE YEARS BY THE UNITED STATES GOVERNMENT, AND ALSO AUTHORIZE SAID GOVERNMENT TO BUILD AND MAINTAIN A PERMANENT HIGHWAY BRIDGE OVER SAID RIVER BETWEEN SQUANTUM AND BOSTON, AND CEDING CERTAIN LANDS, TO THE UNITED STATES GOVERNMENT FOR SAID PURPOSES.

Chapter 22

RESOLVE IN FAVOR OF THE CONSTRUCTION OF A STATE ARMORY IN THE CITY OF QUINCY.

Resolved, that upon the reorganization of the national guard or of the state militia, however the same may be designated, the armory commissioners be advised to construct in the City of Quincy the first armory constructed by them after the said reorganization, provided that there is then existing in the said city a unit of the national guard, state militia or whatever military force may be substituted therefor. (Approved May 15, 1919.)

COURT CASES

Prior to my appointment as City Solicitor, the Mayor, with the approval of the City Council, arranged for Mr. Paul R. Blackmur of Quincy to represent the City of Quincy in the case of Flaherty vs. Quincy, Superior Court, Norfolk County. The case was tried before a jury, a verdict returned in favor of the City, and the case is now pending in the Supreme Court on the plaintiff's exceptions.

Early in the fall of 1919 the City was notified, the Trustees of the Boston Elevated Railway Company proposed to assess upon it a portion of the money contributed by the Commonwealth on account of the deficit in the operating expenses of the Elevated for the six months' period ending July 1, 1919. The Trustees claimed that Section 14 of Chapter 159 of the Special Acts of 1918 authorized the assessment of a portion of said deficit upon the City and that the City would also be required to pay its share of any deficit the Elevated might have in its operating expenses for a period of ten years from January 1, 1919. Said Section 14 is as follows:—

SECTION 14. In case the commonwealth shall be called upon to pay to the trustees or the Company any amount under the provisions of sections eleven and thirteen, such amount with interest or other charges incurred in borrowing money for the purpose shall be assessed upon the cities and towns in which the company operates by an addition to the state tax next thereafter assessed in proportion to the number of persons in said cities and towns using the service of the company at the time of said payment, said proportion to be determined and reported to the treasurer and receiver general by the trustees from computations made in their discretion for the purpose.

I attended a hearing given by the Trustees to the towns and cities of the Commonwealth on which it was proposed to levy said deficit, and protested against the City being obliged to contribute anything thereto. The Trustees reported to the Treasurer and Receiver General of the Commonwealth that Quincy should be assessed \$23,500, as its share of the deficit for the six months ending June 30, 1919. Thereupon I filed in the Supreme Judicial Court a Bill in Equity to restrain the Treasurer and Receiver General of the Commonwealth and the Trustees from proceeding to enforce payment of said money, and also filed a petition for a Writ of Certiorari. After a preliminary hearing before a single Justice, a stipulation was filed in these cases that the Commonwealth would not seek to collect any part of said deficit from the City of Quincy until the legal questions involved had been determined. Subsequently I prepared a petition for legislation exempting Quincy from contributing anything toward said deficit, which was presented to the extra session of the Legislature held in November, 1919.

I attended hearings before the following Committees of the Legislature in connection therewith:

Committee on Rules
Committee on Street Railways
Committee on Ways and Means.

The petition resulted in the Legislature enacting Chapter 250, exempting the City of Quincy from the provisions of said Section 14, Chapter 159, of the Special Acts of 1918, on account of the operation of the cars of the Boston Elevated over the Victory Bridge into the Government reservation at Squantum. After the enactment of said legislation, final decrees were entered in said cases in the Supreme Judicial Court, dismissing same without costs and without prejudice.

Unless the Elevated acquires some other location in Quincy, the City will not be required, under Chapter 159, to contribute toward any deficit of the Elevated.

The following court cases, pending in the Superior Court January 1, 1919, were disposed of during the year; viz.:

City Hospital of Quincy vs. City of Quincy. Writ dated Nov. 29, 1916.
Laban Pratt vs. City of Quincy. Petition dated April 2, 1917.
John E. Smith vs. City of Quincy. Petition dated May 16, 1917.
George N. Douse vs. City of Quincy. Petition dated Nov. 11, 1918.
Martha E. Hodgkinson vs. City of Quincy. Petition dated Dec. 13, 1918.

The following new actions against the City were brought during the year 1919, and on January 1, 1920, were pending in the Superior Court:—

Wm. F. Bennett, p. p. a., vs. City of Quincy
Joseph Ferrarra vs. City of Quincy
Catherine Flaherty, p. p. a. vs. City of Quincy
Joseph Flaherty, p. p. a. vs. City of Quincy.
Mary Flaherty vs. City of Quincy
Margaret Gillis vs. City of Quincy
Alfred Hemenway vs. City of Quincy
Theophilus King et al., Trustees vs. City of Quincy
James Knight vs. City of Quincy
Eugene R. Stone vs. City of Quincy

In addition to the foregoing cases, the following actions were also pending in the Superior Court on January 1, 1920:—

Alma M. Anderson vs. City of Quincy
Bessie Eldredge vs. City of Quincy
Besse Jaffe vs. City of Quincy
Laban Pratt vs. City of Quincy
Frederick C Smail vs. City of Quincy
Arthur L. Thomas vs. City of Quincy
Henry Wheeler vs. City of Quincy

CLAIMS AND AWARDS

During the year many minor claims were adjusted and awards made without formal court proceedings in connection therewith.

During the year I have been in attendance at City Hall very nearly every day, and have from time to time advised His Honor, the Mayor, the heads of the administrative departments and the City Council as to matters concerning their respective departments whenever they have requested my opinion concerning the same.

JOHN W. McANARNEY,
City Solicitor.

REPORT OF CITY TREASURER FOR 1919

January 1, 1920.

Hon. Joseph L. Whiton, Mayor,
Quincy, Massachusetts.

Dear Sir: I herewith submit the annual report of the City Treasurer for the year ending December 31, 1919. I remain,

Very respectfully yours,

WALTER E. PIPER, *City Treasurer.*

Thomas J. Thompson — May 27, 1918 — March 19, 1919.

Conclusion

The year of 1919 passed without any extraordinary class or amount of crime for the department to handle.

There are several matters I hope will be given early and earnest consideration relative to the needs of the department.

Chiefly of course is the necessity of new and larger quarters.

I feel it is unnecessary to again quote previous statements of local and state health boards relative to the needs here, but perhaps the following data will impress upon all how we are today situated with a force of sixty men in quarters originally provided for about one fifth that number.

The present police headquarters is a rough granite structure about ninety-one year old, and has been in almost continuous use by the town and city during that time for school, fire department and police purposes.

The Building was built in 1829 at the following figures: land \$150, stone masonry \$439, carpentry \$540, and painting \$13.64 or a total of \$1142.69.

The building was first erected one story in height and in 1841, a second story was added at a cost of \$900.

The building was used for school purposes until 1879 and in 1882 was converted into a fire station until 1892 when it was again abandoned.

In 1901 it was said the basement of City Hall was not healthy or desirable place for the police station and the sum of \$2500 was appropriated for the fitting up of this old building as headquarters.

On February 15, 1902, we moved into these quarters which was then only supposed to be temporary quarters for a force of about one fifth our present number.

A visit to headquarters today will clearly show we have completely outgrown the place.

The population of our city has increased so rapidly that the three platoon system of patrol should be given serious consideration, while the automobile traffic has increased to such an extent it is wrong to say we are in position to properly handle it with our present number of officers.

We are today using every available man including reserves, which leaves us badly handicapped for summer traffic or emergency work.

I desire at this time to sincerely thank all officials with whom I have had to deal in conducting the affairs of this office.

To his Honor the Mayor, for fair dealing and consideration for the needs of the department, to the members of the council who have so willingly heard appeals to better conditions, with the result I can see a more satisfied and content body of men.

To Judge Avery, Judge Nash and Judge McAnarney for fairness and patience displayed in dealing with the department. To the Clerks of Court Mr. Lyons and Mr. Macdonald, Mr. Fay and his assistant and other attaches of the court for kind courtesies. And to Mr. Crane and Miss Lyons for so many courtesies in the office of City Clerk and City Auditor Fairbanks all of whom we have to deal much with in conducting our business.

Respectfully submitted,

ALFRED W. GOODHUE, *Chief of Police.*

PUBLIC BURIAL PLACES

Visits to the Almshouse	26
Visits to the Police Station	24
Attendance in Court	8
Vaccinations	6
Attendance in childbirth	5

THOMAS J. DION, M.D.,
City Physician.

REPORT OF OVERSEER OF POOR

Quincy, Mass., January 1, 1920.

To His Honor the Mayor of the City of Quincy:

The Overseer of the Poor, in compliance with the city ordinances, respectfully submits his report for the year ending December 31, 1919.

The Department has aided 206 cases on Outside Poor, many of these being temporary cases, we have had applications from 70 more cases, which applications have been investigated and no aid granted but in many cases we have advised the people and in some cases are still visiting the families. We have aided 66 families under the Mothers' Aid Law and of these 10 have been discontinued during the year. We have also received applications for 6 cases which on investigation we found that with the help of relatives the families could be supported.

We are very grateful to the Associated Charities and various societies which have coöperated with us for the benefit of our families.

A detailed report of the cost of the department will be found in the following statement.

The following is the financial statement for the year 1919:

Appropriations:		
Office.....	\$100.00	
Telephone.....	60.00

APPARATUS

Central Station

One steam fire engine with tractor; one auto combination ladder truck; one auto combination hose truck; one triple combination White pumper; one Kissel combination hose truck (in reserve); one Chief's car.

Wollaston Station

One auto combination hose truck; one auto combination ladder truck with tractor.

Atlantic Station

One triple combination White pumper.

Quincy Point Station

One triple combination White pumper.

West Quincy Station

One auto combination hose truck; one auto combination ladder truck.

Houghs Neck Station

One auto combination hose truck.

HOSE

We have in the department 14,550 feet of 2½ inch fire hose, 8600 feet in good condition, 3150 feet in fair condition, 2800 feet in poor condition.

HORSES

There is one old horse in the department used by Supt. of Fire Alarm.

ALARMS

During the year there were 479 alarms.

Bell alarms, 187.

Still and telephone, 292.

False, 43.

The Central Station apparatus responded to 260 alarms.

The Wollaston Station apparatus responded to 173 alarms.

The Atlantic Station apparatus responded to 103 alarms.

The West Quincy Station apparatus responded to 82 alarms.

The Quincy Point Station apparatus responded to 107 alarms.

The Houghs Neck Station apparatus responded to 32 alarms.

Total number feet of hose laid, 39,000.

Total number feet of ladders raised, 1,896.

Total number gallons chemical used, 4,366.

Hydrants in use 50 hours, 20 minutes.

Time absent from quarters 358 hours, 42 minutes.

PERMITS

760 Permits and licenses have been issued from this office the past year.

INSPECTIONS

Regular inspections have been made since August 1, 1919 and I think it has been the means of preventing a large number of fires.

VALUATIONS, INSURANCES AND LOSSES

Value of property involved	\$1,055,607.00
Insurance on same	674,600.00
Loss insured and uninsured	111,470.60

Fire Losses for Year 1919

<i>Month</i>	<i>Buildings</i>	<i>Contents</i>	<i>Total Losses</i>
January....	\$1,200.00.....	\$1,781.00.....	\$2,981.00
February...	12,348.75.....	3,655.00.....	16,003.75
March	2,737.00.....	881.00.....	3,618.00
April.....	6,193.00.....	11,125.00.....	17,318.00
May.....	1,533.00.....	3,459.56.....	4,992.56
June.....	1,299.75.....	454.75.....	1,754.50
July.....	36,098.00.....	232.00.....	36,330.00
August....	893.00.....	378.87.....	1,271.87
September .	870.50.....	125.00.....	995.50
October....	2,160.00.....	520.00.....	2,680.00
November..	12,359.00.....	9,124.00.....	21,483.00
December..	1,765.00.....	277.42.....	2,042.42
Grand total	\$79,457.00	\$32,013.60	\$111,470.60

Three new White pumping engines have been added to our equipment the past year and a new car is being made for the Chief. The addition of this new apparatus is a big asset to our department.

The call force in the department has been abolished. The two platoon system accepted by the voters which will require at least twenty-one more men, will be in effect February 2, 1920. I think it will increase the efficiency of the department. I recommend the purchase of 3000 feet of 2½ inch fire hose and shall put my estimate of the cost for same in the budget. While the price of wire is very high, we must provide a number of miles of it for our alarm system.

During the past year a number of changes in the officers of this department have taken place. Our Chief, Mr. Faxon Billings, died on July 4th and Captain Alfred L. Mead was appointed Chief August 1st, Lieutenant Faircloth was made Captain and private Griffin made Lieutenant.

In conclusion I wish to extend my thanks to His Honor, the Mayor, the Councillors, City Clerk Crane, City Auditor Fairbanks, and Treasurer Piper for the many favors shown me in the past year, also I wish to thank the Permanent men in the department for their splendid coöperation.

Respectfully submitted,

ALFRED L. MEAD, *Chief Fire Department.*

In Memory

FAXON BILLINGS

CHIEF FIRE DEPARTMENT

1914-1919

DIED

JULY 4TH, 1919

REPORT OF CITY CLERK

I have the honor to submit the thirty-first report for this department, being for the year ending December 31, 1919.

RECEIPTS

Amusements.....	\$508.00
Auctioneers.....	10.00
Express and carriage.....	260.00
Junk.....	350.00

JAMES M. CANTFILL,
Sealers of Weights and Measures.

ASSESSORS' REPORT

Quincy, Mass., January 1, 1920.

To His Honor, the Mayor, and the City Council:

Gentlemen: The following is respectfully submitted as the report of the Assessing Department for the year 1919.

Valuation

The valuation of the city April 1, 1919, as determined by the assessors, follows:

Value of land	\$18,213,925.00	
Value of buildings	28,161,875.00	
Total		\$46,375,800.00
Valuation of personal property other than bank stock separately assessed	\$5,876,400.00	
Valuation of National Banks located in and taxable in the City of Quincy	79,920.00	
		<u>5,956,320.00</u>
Total valuation of the city as determined April 1, 1919		\$52,332,120.00
Amount to be raised by taxation	\$1,752,148.76	
Tax rate	28.00	
The valuation was also increased by omitted assessments levied in December, 1919		226,750.00
The total valuation of the city upon which taxes were assessed for the year 1919, when all assessments had been made, was		<u>\$52,558,870.00</u>

Valuation by Wards

(Not including valuation of bank stock)

	<i>Personal</i>	<i>Real Estate</i>	<i>Total</i>
Ward 1	\$2,446,225.00	\$12,678,175.00	\$15,124,400.00
Ward 2	1,327,725.00	9,206,450.00	10,534,175.00
Ward 3	376,900.00	4,436,125.00	4,813,025.00
Ward 4	250,500.00	2,909,575.00	3,160,075.00
Ward 5	935,300.00	10,299,850.00	11,235,150.00
Ward 6	539,750.00	6,845,625.00	7,385,375.00
	<u>\$5,876,400.00</u>	<u>\$46,375,800.00</u>	<u>\$52,252,200.00</u>

The polls returned by the assistant assessors, and those registered for the year amounted to 14,845.

The assistant assessors who served during the year were: Ward 1, Edward S. Bennett; Ward 2, William Sullivan; Ward 3, Thomas Goodwin; Ward 4, Joseph Garrity; Ward 5, Charles Decker; Ward 6, George L. Bean.

Summary from the Table of Aggregates

REPORT OF HEALTH COMMISSIONER

Jan. 1, 1920.

On March 1st the Board of Health was abolished and the duties of this department were assumed by a Health Commissioner. The change has facilitated the work.

The equipment in the Sanitary division has been renewed and put in first class shape.

One new dump truck was added to the Ash Collection department, a new pump purchased for cesspool work and one new garbage wagon was also added. The results have been very apparent in small number of complaints.

The use of motor trucks in the collection of ashes has proved a success; service never before attained has been rendered.

The appointment of a Milk Inspector, giving all his time, has resulted in better conditions and by return of tests made, Quincy stands 6th in 75 cities and towns where the tests were made. 88 tests were made in our laboratory during the year.

EDWARD A. BEAN,
Health Commissioner.

CHILD'S WELFARE

February 19, 1920.

On April 1, Mrs. Marie Ewing assumed charge of the Child's Welfare and has rendered efficient service to those dependent on this department.

24 Clinics were held and 285 children were examined and weighed. 225 families were visited and a total of 711 calls were made. 41 children sent to hospitals and 37 children referred to physicians for treatment.

REPORT FROM THE QUINCY DISPENSARY 1919

Number of individuals examined for tuberculosis at Dispensary during the year 1919.....	172
Number of patients admitted to State Sanatoria.....	39
Number of patients admitted to Hospitals.....	33
Number of patients under active supervision of Dispensary.....	106
General average of visits made by nurse during the year.....	1500

Respectfully yours,

GERTRUDE B. FLAHERTY.

REPORT OF INSPECTOR OF PLUMBING

January 1, 1920.

Mr. Edward A. Bean,
Commissioner of Health,

Dear Sir: As Inspector of Plumbing I have the honor to submit my twenty-sixth annual report.

Number of permits from Jan. 1, 1919 to Dec. 31, 1919 553
Cash received for permits from Jan. 1, 1919 to Dec. 31, 1919 \$1,069.00

Nature of Buildings for which permits were issued

New Dwellings	217	Theatres	3
Old Dwellings	201	Business Blocks	8
Beach Cottages	17	Barber Shops	6
Hospitals	2	Bakery	1
Stores	41	Drug Store	1
Garages	11	Stables	1
Office Buildings	7	Tenement Blocks	1
Restaurants	15	Society Buildings	2
Churches	3	Club House	1
Foundry	1	Car Barn	1
Factories	7	Fire Station	1
Boiler Room	1	Store House	1
Dental Parlors	2	School	1

New Buildings — New Sewer Connections

New Dwellings	154	Old Dwellings	61
Summer Cottages	4	Society Building	2
Garages	8	Theatre	1
Restaurants	2	Barber Shop	1
Stores	14	Store House	1
Factory	1	Office Building	1
Business Blocks	3	Stables	1

Buildings Connected to Cesspools — New Connections

New Dwellings	63	Old Dwellings	42
Summer Cottages	13	Church	1
Office Building	1	Bakery	1
Garages	2	Stores	2
Factories	2		

During the year there were two cases of prosecution for violation of the plumbing laws and conviction secured in both cases. The complaint in both cases was "For-not reporting work done." Permits were later taken out by licensed plumbers and the work installed in compliance with our plumbing laws.

Minor mistakes are quite often made in the plumbing work, unintentionally, which do not require severe measures to have rectified. I find that the greatest number of mistakes made in the installation of plumbing are made by outside plumbers; not always because they are lacking in the knowledge of the business but they are not familiar with our local laws which differ slightly from the laws of other cities and towns.

As the trouble that I refer to is not local and the plumbing laws are created to protect the health of the people, it is my opinion that the adoption of a universal law will in a great measure remove these mistakes, which are often quite expensive to the owner or the plumber who performs the work, and also insure proper plumbing in all localities.

There has been recently presented to the Legislature a bill to establish a State Plumbing Code, which, if adopted, will be operative in all parts of the Commonwealth. This, in my opinion is a long felt want by all parties interested in plumbing. Our local plumbing laws, are I am satisfied as good as the laws will average in other cities or towns, but I feel confident that if a standardized law is substituted it will be equally as good. The formulating of the same, according to the bill will be placed in the hands of persons well qualified to introduce laws that will be of the highest standard from a sanitary point, and should not increase the present cost of plumbing.

Believing that you are always interested in health measures which are for the public good, I solicit your support of this bill.

Yours respectfully,

J. J. KENILEY,
Inspector of Plumbing.

REPORT OF INSPECTOR OF BUILDINGS.

January 1, 1920.

Hon. Joseph L. Whiton,
Mayor of Quincy, Mass.

Dear Sir: In compliance with your request I herewith submit the Thirteenth Report of the Building Department for the year ending December 31, 1919.

During this year we have had a substantial increase in the number of permits issued, notwithstanding the handicaps of the high cost of material and labor.

Upon comparison with the previous year, I find that we have nearly doubled the estimated cost of the buildings erected by our resident builders in that year. In 1918 the United States Housing Corporation erected dwellings, dormitories, etc., to the amount of approximately \$3,000,000. and our resident building operations amounted approximately to \$915,000.

In 1919 the building operations by our resident builders amounted to \$2,159,697.

In 1918 the total number of dwellings erected within the City was 380, our resident builders erected 124 of them; the remainder having been erected by the U. S. Housing Corporation.

In 1919 the number of dwellings erected was 272, which is approximately 115% increase over the previous year.

Permits issued

267 Dwellings.....	\$1,039,250.00
5 Cottages.....	3,950.00
27 Mercantile.....	123,300.00
11 Manufacturing.....	75,000.00
42 Stables, etc.....	14,875.00
373 Auto Houses.....	201,584.00
255 Alterations.....	461,168.00
60 Removals.....	27,050.00
8 Miscellaneous.....	209,020.00
1 Elevator.....	4,500.00
1049	<hr/> \$2,159,697.00

Statement

Cash received each month for permits issued January 1st to December 31st, 1919, inclusive, and paid to the City Treasurer.

January.....	\$63.00
February.....	87.50
March.....	151.50
April.....	160.00
May.....	155.50
June.....	167.00
July.....	193.50
August.....	167.50

September.....	156.00
October.....	288.50

December.....	165.50
	<hr/>
	\$1,959.00

Respectfully submitted,

WARREN S. PARKER,
Inspector of Buildings.

REPORT OF INSPECTOR OF WIRES

January 1, 1920.

Hon. Joseph L. Whiton,
Mayor of Quincy, Mass.

Dear Sir: I present herewith the report of the Department of Wires for the year ending December 31, 1919.

Inspection in Buildings

The following specified schedule of electrical inspections made of lights and other appliances installed is respectfully submitted.

	1918	1919
Number of permits issued with fee	917	1,130
Number of permits issued without fee	162	212
Total number of permits issued to electrical contractors	1,079	1,342

Cash received for permits issued from January 1, to December 31.

	1918	1919		1918	1919
January	\$38.00	\$68.00	July	\$65.00	\$114.00
February	42.00	40.00	August	50.00	109.00
March	51.00	95.00	September	93.00	114.00
April	63.00	86.00	October	56.00	109.00
May	61.00	82.00	November	300.00	96.00
June	65.00	108.00	December	33.00	109.00
Total	\$917.00	\$1130.00			

	1918	1919
Number of inspections made as per permits issued	2,237	3,026
Number of defects noted	687	940
Number of inspections made on old installations	280	94
Number of defects noted	784	668
Number of unfinished installations	270	144
Number of electrical contractors doing work	113	199
Number of permits issued to the Quincy Electric Light & Power Co. to install service and electrical appliances	706	1,373

Electrical Fires

Out of 479 alarms for fires in this City for the year 1919, only two were reported to this Department; these being caused by over-heated electric irons. No fires reported as caused by defective wiring.

Respectfully submitted,

FRANK LINTS,
Inspector of Wires.

REPORT OF BOARD OF SURVEY

January 1, 1920.

To His Honor the Mayor,
and Members of the City Council.

Dear Sirs: The Board of Survey respectfully submits herewith its fifth annual report for the year 1919.

The Board organized March 4, 1919, with Hon Eugene R. Stone as Chairman and P. F. O'Brien, City Engineer, as Clerk.

One new member was appointed, Mr. William H. Teasdale for a term of three years.

Five meetings were held during the year.

The Board held hearings and approved the layout of new streets on the development of four parcels of land.

Respectfully submitted,

Board of Survey { HON EUGENE R. STONE, *Chairman*
WILLIAM H. TEASDALE
P. F. O'BRIEN, *Clerk*.

For Quincy Lumber Company.....	1,842,388
Number laths.....	338,500

Miscellaneous

1 cargo Lime,	1 Cargo Sand.
Total number of vessels of all kinds passing through draw at Fore River Bridge.....	2,658

Respectfully submitted,

EDWARD M. WIGHT, *Commissioner.*

REPORT OF THE ENGINEERING DEPARTMENT

January 1, 1920.

To His Honor, Joseph L. Whiton, Mayor,
and Members of the City Council.

Dear Sirs: I herewith respectfully submit the twentieth annual report of the Engineering Department for the year ending December 31, 1919.

The following is a statement of the work done by this department during the year 1919.

Street lines and grades have been given at the request of property owners in front of 125 estates.

Plans and estimates have been prepared for the City Council as follows:

Proposed street widenings.....	4
Acceptance of private streets.....	20
Plans for Planning Board.....	3
Plans of Board of Survey.....	1
Plans for Legislative hearings.....	2

Commissioner of Public Works

Lines and grades have been given for construction of new streets, sidewalks, sewers and drains.

Assessors' Plans

The work of tracing the Assessor's plans has been continued during the past year.

Surface Drainage

The plan for surface drainage for the entire city which was started in 1918 was completed. All drains laid during the year were done in accordance with this plan.

Washington Street Widening

The work of widening Washington Street was continued during the year and all but two of the estates were made to conform to the new street line.

Elimination of Grade Crossing

Nothing has been done on the Elimination of Grade Crossings during the year as the Railroad Company is still under control of the United States Government.

Hancock Street

The question of putting the surface of Hancock Street in proper condition for traffic occupied the attention of the City Authorities for a long time.

The great expense to rebuild the granite block roadway from City Square to Neponset Bridge necessitates the spreading of the expense over a period of years. The City Council finally decided to appropriate \$75,000 this year so as to make a beginning.

For financial statement see Auditor's Report.

Yours respectfully,

PATRICK O'BRIEN,
City Engineer.

**The following streets have been laid out during the year as
Public Highways**

<i>Street</i>	<i>Location</i>	<i>Ward</i>	<i>Length</i>	<i>Width</i>
Alton Rd.	Kendrick Ave., southerly	3	440	40

SEWER DEPARTMENT

At the beginning of the year a balance of \$14,613.33 for Sewer Construction was on hand. During the year an appropriation of \$30,000.00 was made for sewer construction:—\$4,500.00 for the sewer for the new Squantum School, and a special appropriation of \$16,200.00 was made to take care of the sewers to be laid in streets to be built and accepted by the city.

The following table shows the sewers built by the city, 1919.

<i>Location</i>	<i>From</i>	<i>To</i>	<i>Length</i>
Baxter Avenue	Pilgrim Parkway	145.5 ft. no. easterly	145.5
Beech Street	Curtis Avenue	238.5 ft. no. easterly	238.5
Darrow Street	Rock Island Road	Sea Street	1,132.0
Dockray Street	Eddie Street	Beale Street	398.5
Eddie Street	Adams Street	Dockray Street	677.0
Elmwood Avenue	No. Central Avenue	Norfolk Street	589.5
Fenno Street	Marlboro Street	Thornton Street	210.25
Fenno Street	Marlboro Street	Florence Street	469.75

Verchild Street	Independence Ave.	Federal Avenue	422.2
Water Street	Pleasant Street	622.66 ft. westerly	622.66
Wollaston Park Annex	Merrymount Park	Fenno Street	1,825.0
		Total	9,231.26

Squantum School Sewer

East Squantum Street	Dorchester Street	Huckins Avenue	
Huckins Avenue	East Squantum Street	Squantum School	1,092.5
	Huckins Avenue	School House	81.0

Built during 1919 1.748 miles.
Total mileage of sewers to date 86.88 miles.

340 house connections were made by the city during the season at a cost of \$14,698.38, making the average cost per connection \$43.23.

The total length of house connections laid was 15,057.4 feet, making the average cost per foot \$0.976.

The connections made by the city were as follows, in

Ward 1.....	37	Ward 4.....	21
Ward 2.....	72	Ward 5.....	136
Ward 3.....	32	Ward 6.....	42
Total.....	340		

An appropriation for maintenance was made.....	\$1,327.28
Expenditures.....	3,173.50

Leaving a balance of.....	\$1,153.78
---------------------------	------------

Following is a table showing the completed sewers in the three government tracts at Quincy Point built under contract in 1918-1919.

River Street Tract

<i>Location</i>	<i>From</i>	<i>To</i>	<i>Length</i>
Abbey Road	Washington Street	Graham Street	323.0
Graham Street	Abbey Road	Charles Street	446.3
Pilgrim Parkway	Charles Street	Washington Street	791.77

Arnold Street Tract

Arnold Street	Near Murdock Ave.	South Street	994.0
Commonwealth Ave.	North Street	Ruggles Street	265.0
Fifth Avenue	Germain Avenue	Arnold Street	1,046.56
Germain Avenue	Commonwealth Ave.	Fifth Avenue	259.93
North Street	Commonwealth Ave.	South Street	877.81
Ruggles Street	Murdock Avenue	South Street	1,238.6

Baker Basin Tract

Avalon Avenue	Dee Road	Washington Court	9,861.88
Dee Road	Avalon Avenue	Washington Street	592.2
Lawn Avenue	Dee Road	Washington Court	1,052.28
Low Level Sewer	Washington Court	Dee Road	1,155.13
Washington Street	Existing sewer	Dee Road	449.5
Whiton Avenue	Dee Road	Washington Court	1,067.0
Total....2.18 miles			11,545.96

In the three tracts there were laid as follows, 313 house connections

Baker Basin Tract.....	125
Arnold Street Tract.....	128
River Street Tract.....	60
Total.....	313

REPORT OF THE PLANNING BOARD

January 1, 1920.

To His Honor the Mayor, and Members of the City Council,

Gentlemen: The City Planning Board herewith submits its fifth annual report.

A vacancy upon the Board was filled by the appointment of Charles H. Finn to succeed Eugene C. Hultman who had removed from the City.

The board organized by re-electing Wilson Marsh, Chairman and City Engineer P. F. O'Brien, Clerk.

There have been nine regular meetings held.

The much desired co-operation of the City Council was given a start at one of our earlier meetings by the attendance of Messrs. McGrath, Bass and Scott, a committee appointed to consider recommendations in our 1918 report.

Many subjects which we consider vital are still pending, among them added City Hall facilities and a Comfort Station. We cannot add more to our urgent recommendations for these than has already been done in previous reports.

A drainage plan for surface waters has been completed by the City Engineer. It is embodied in an 8 foot plan, covering not only the present drainage system but the proposed and necessary subsequent extensions.

The Legislature has acceded to Quincy's appeal for the missing link of the Furnace Brook Parkway and the work has progressed as far as the season will permit.

An appropriation has been provided for the tidegate at the outlet of Black's Creek and work will probably be started in the early Spring. In connection with the latter we renew our proposition that the City provide with our Park Board for a footbridge to Pine Island giving access for the Public to this beauty spot which will have tide water upon its beach for all time.

We have made arrangements for the 2000 White Pines obtained from the State Forestry Department to be set out at the beginning of the season in Faxon Park.

We have been interested to study intensively plans which have been proposed for addition to the High School. The urgency of this is on a par with others mentioned above and we consider it within the province of this board to pass its opinion upon such plan or plans as may be submitted hereafter by the constituted authorities.

In the matter of the annex to City Hall the board passed favorably by a vote of three to two at the time this matter was under discussion.

It has been an added pleasure and honor to present our views upon several occasions to the Chamber of Commerce and shall hope the coming season that we may exchange views upon such topics as may arise bearing upon the general welfare of the City.

A white way for the business section was favorably considered and the subject of a permanent band stand at Merrymount Park approved in response to communication from the secretary of the Chamber.

We shall at an early date again make request of the City Council that a building line be placed upon North Street. It is the least the City can do to express its good will toward the proposition coming before the General Court of 1920 regarding the Pilgrim Parkway.

The Building line upon Franklin Street is in line with the original study of this board, planning suitable width for the main arteries of the City.

Regarding the extension of Furnace Brook Parkway it must be apparent to anyone familiar with the locality that the end of the present extension is entirely unsatisfactory. We are no sooner through desiring that this portion of the Parkway be constructed than we shall begin to look forward to its direct extension to the Quincy Shore Boulevard. Newport Avenue with its accompanying street railway track must necessarily be carried over this Parkway. We do not see necessity for delay to await completion of the four track system of the New Haven road.

Despite the expense of the proposed new subway at Wollaston it can but be a benefit to the public in that section of the City.

At a conference of representatives of the Planning Board with Mr. Harvey H. Pratt, chairman of the Pilgrim Memorial Highway Association, which was also attended by His Honor the Mayor, Rev. A. L. Hudson of the Quincy Historical Society and Mr. F. E. Tupper, a plan of the old "Country Way" was studied and some eighteen points of historical interest were located upon it. This is being published in anticipation of the Pilgrim Tercentenary.

The annual conference of Mass. Planning Boards called by His Excellency Governor Coolidge, December 12th was attended by Messrs. Marsh, Palmer and Finn of this Board. These conferences have always been found helpful and it is the desire of the board that the next annual conference may be held in Quincy.

At our meeting in February a resolution was passed expressing our sincere respect for the late Albert H. Wright whose skill is perpetuated in many public buildings of the City.

The Public Service Commission, as one of the last duties of its existence, on Nov. 29th handed down its decree upon the Quincy Grade Crossing findings thereby completing the final step in enabling the N. Y. N. H. & H. R. R. to proceed with the actual work.

Even with the discontinuance of war activities at our shipyards there are many developments looking for a prosperous year 1920. A great Dry Dock at the Fore River and the works of the Massachusetts Oil Co. near-by, stand out among these.

We are submitting in this report, for a frontispiece, a photograph of the very artistic Neighborhood Club House and accompanying it the plot from which it arose. We cannot give a more striking example of the improvement of a plot of wild land. It speaks for itself.

Accompanying our plan of the Faxon Playground we are presenting a photographic view in hopes that at some time in the not too far distant future we may present another view from the same point showing its improvement.

Through the courtesy of Mr. Herbert J. Kellaway we are publishing a plan of Victory Park.

Last but not least of our endeavors we present a complete plan and profile of the proposed new Pilgrim Parkway which we shall do our utmost to have accepted by this incoming Legislature, in pursuance of the joint recommendation of the former Highway and Metropolitan Park Commissions, which was referred from the Legislature of 1919 to 1920.

This plan has been very carefully executed and includes profile showing the grades and notations of the various stages of construction and possibilities throughout its entire length.

Construction of the Pershing Boulevard through the Adams Estate at Merrymount is the first stage for the coming year.

By permitting the Edison Company to enter Quincy in connection

with the Quincy Electric Light Co., the city will indirectly secure light and power from the Connecticut River.

In the opinion of this board the extensive rebuilding of Hancock Street should extend from City Square to Neponset Bridge in connection with the renewal of tracks by the Street Railway Co. This would give sufficient width of street throughout its entire length for necessary travel and improvements for its entire width can be possible at later stages.

When reconstruction of Hancock Street is undertaken all wires, where possible, should be put underground and poles eliminated.

The Pilgrim Parkway of the Housing Corporation has been completed the past year.

We are presenting a view from near the top of Merrymount showing construction under way and the present shore boulevard in the background. Our slogan should be "Merrymount to Plymouth Rock." With 241,620 automobiles already registered in the State up to Dec. 1st we can see that Quincy Square must be relieved. It has been apparent enough for the past several years but even with the widening of Washington Street we can see that comfort and safety will be out of question another season through the Square.

These new plans of the Pilgrim Parkway are on exhibition at the Public Library and at the rooms of the Chamber of Commerce.

Respectfully submitted,

CITY PLANNING BOARD.

WILSON MARSH, *Chairman*,
EZEKIEL C. SARGENT,
JAMES E. W. GEARY,
EDWARD E. PALMER,
CHARLES H. FINN.

PATRICK F. O'BRIEN, *Clerk*.

During the year extensions of mains were made in 34 streets, sizes being from 4 inches to 12 inches. The total amount of main pipe laid was 11,792 feet, making a total of 754,279 feet, or 142.85 miles in use. 4,474 feet of old pipe was abandoned and replaced by pipe of a larger size.

27 Fire hydrants were set on street mains, making the total number of hydrants in use 1233.

590 new services were installed and 8 services were discontinued making the total number of services in use 10,831. There is 92.5 miles of service pipe in use at the present time.

49 services were renewed during the year.

582 meters were set and 15 meters were discontinued, making the total number of meters in use 9,837 or 90.8 percent of the total number of services.

The average daily consumption of water for the year was 4,641,800 gallons.

For further detail see the accompanying tables.

REPORT OF THE TRUSTEES

To His Honor, the Mayor of the City of Quincy:

The forty-ninth annual report of the Trustees of the Thomas Crane Public Library is herewith presented.

The Board is gratified that it can "point with pride" to the accomplishment of 1919 in Library work and that it sees no occasion to "view with alarm" any conditions which confront it.

The choice of Mr. Truman R. Temple a year ago as Librarian proved a happy one. Under his management the advance of the Library has been phenomenal. Not only have two new branches at Quincy Point and Wollaston been established in addition to those at West Quincy and Atlantic but the schoolhouses in the different wards have been made centres for the distribution of books. The co-operation of the Library with the Schools has been a marked feature of the present administration. The increase in circulation the past year, especially in the Children's Room, has been remarkable. The extension of the open stack system until it now embraces the entire Library has been much appreciated by the public. The Librarian's annual report which deals more at length with the points above alluded to will be found interesting reading.

Early in the summer the Trustees thought it wise to buy the land and building heretofore leased for the use of the West Quincy Branch together with a strip of adjoining land which will give opportunity for enlargement of present quarters when need arises, the funds for the purchase being derived from a part of the land damages awarded the Library by the city when Washington Street was widened.

A little later a good chance presented itself to acquire the Laban Pratt property adjoining the Library lot and this was done. Ultimately this land will be thrown into the Library grounds, thus improving the proportions of the present lot and enhancing the beauty of the Library building. It was the intention of Mr. Albert Crane, to whose liberality the city is greatly indebted, to make

this purchase. Hence it seems fitting that a portion of his bequest to the Library should be devoted to this purpose which was done.

Through the kindness of Mrs. Emily E. White, the Library has received the gift of one thousand dollars, the income to be devoted to establishing a music fund in memory of her sister, Miss Alice G. White, whose long service as Librarian will not be soon forgotten.

Just as the Board was completing the year's labors, the sad news was received of the death of one of its members, Mr. Harry W. Read of Atlantic, who had had the good of the Library much at heart and had been indefatigable as Chairman of the Administration Committee in promoting its interests. Many other organizations and a wide circle of friends mourn the loss of a genial associate and warm-hearted, generous man.

The Trustees realize that the be-all and end-all of the Library is to provide the public with books. That has been their chief thought in the months past and will continue to be in the future.

Respectfully submitted,

CHARLES R. SAFFORD, *Chairman,*

ELIZABETH H. ALDEN, *Secretary,*

For the Trustees.

REPORT OF LIBRARIAN

To the Trustees of the Thomas Crane Public Library:

Gentlemen:— I submit below the Librarian's report for the year ending December 31, 1919.

A happy combination of circumstances has made it possible to take a long forward stride in the year just passed. In common with the libraries throughout the country we have felt the increased interest in books which followed the return to normal activities of a war wearied people. Fortunately we have been able to save enough from other items of our budget to afford an expenditure for books somewhat in excess of previous years. And again we have recently by the establishment of two new branches at Quincy Point and Wollaston greatly extended our influence. For the first time we take our position in the two hundred thousand class with a total circulation of 251,623. The previous high water mark of 183,934 was made in 1917.

Perhaps the most important piece of work accomplished has been the throwing open of the book stacks to the public. Certainly it has been the one most often commented upon by the public and grateful appreciation has been the dominant note. Many books now circulate freely that had previously lain unnoticed upon our shelves. A decided relief in the pressure of work at the charging desk has been noticeable by reason of the fact that in having personal access to the shelves the public have been glad to serve themselves. Altogether it has justified the great amount of planning and the shifting of practically every book in the Library at least once, and many of them two or three times, in order to effect compact arrangement.

Another innovation has lightened the nervous strain at the delivery desks and permitted the borrowers to receive their books with a minimum of delay. The charging system has been changed from the old time consuming Browne method, with its never ending array of pockets, to the more modern Newark system. As an illustration of what this has meant we may cite the results in the

Children's Room. Here a greatly increased circulation has been handled comfortably by Miss Reed with one part-time helper where a year ago it was necessary for her to have three assistants during the busy hours. The total of 8,729 borrowers reported represents only the actual borrowers since June when the re-registration made necessary by the above change was begun.

A shelf of each of the most recent bound magazines which are listed in the Reader's Guide has been placed in the Reading Room in easily accessible position. This arrangement together with the opening and rearrangement of the stacks has made possible a step toward that dream of every librarian — the close coördination of the work of the Library and the School. Last spring as soon as it was possible Miss Bates, the High School Librarian, began bringing classes to the Library at 8.15 in the morning for instruction by the Librarian in the use of the catalog and of the Reader's Guide to periodicals, and a general familiarization with the resources and methods of the Library. When the High School opened in the fall the same work was resumed under the direction of the new High School Librarian, Miss Coulman. There is small danger of overestimating the value and far reaching effect of such work with the schools, affording as it does the opportunity for contact with our future citizens during the habit forming period. That thought has inspired the extension work which has been carried to six of the most outlying grammar schools. And in this connection we must not lose sight of the fact that Quincy comprises an area of some seventeen square miles. Adopting the school building rather than the room as a unit we have placed collections in six of the grade buildings as follows: Adams, Atherton Hough, Gridley Bryant, John Hancock, Lincoln, and Squantum. With a slight modification to meet the special conditions the books are charged out for home use exactly as at any of the Branches. During the three months since their installation these collections handled entirely by students under the supervision of the teaching staff have done a work equivalent to that of the best of our Branches. It is worthy of note in this connection that for the first time the circulation of juvenile books has exceeded the adult total. We have loaned 128,886 of the former and 122,737 of the latter.

Although the work with the younger members of the community has at all times aroused our warmest sympathy we have at no time lost sight of the ideal of a public library with emphasis on the word "public." Remote as the achievement seems we still aim at providing for every legitimate need of the printed page on the part of the residents of any age in any part of Quincy. Our problem is complicated by an unusually scattered population as well as by the great variety of racial groups. Among the latter during the past year we have provided the Finnish readers with a collection of books in their own language, placed at the West Quincy Branch. After much difficulty we have also succeeded in purchasing a supply of Arabic books for the Syrian groups near the Quincy Point Branch. The use of both collections has been gratifying and has brought forth many expressions of gratitude. We have also collections of works in modern Greek, Italian, Polish, Spanish and Swedish which continue to show activity. In connection with this subject acknowledgment is due Miss Campbell of the Free Public Library Commission for loans of books and valuable advice.

The reclassification of the Library begun in 1914 has gone on this year to completion under Miss Hyland. All odds and ends have been cleared up and at last the Reference collection is classified and conveniently arranged. A notable piece of work has been performed by Miss Whittemore in addition to her regular reference work. She has taken over all the filing and has gone through and revised the entire card catalog. Conflicting methods have been readjusted and permanent rules adopted in connection with Cutter's hand book to cover all problems as they arise.

The immediate success which followed the establishment of the Branches at Quincy Point in September and at Wollaston in the following month proved how much needed they were. They immediately took rank with the older Branches and have continued to hold it. This by no means covers the city or meets the expressed wants. Appeals have come from Hough's Neck, from Squantum, and from South Quincy, which are hard to refuse and yet are equally hard to meet by reason of our lack of books. A comparison with the neighboring libraries shows that we have less than half as many volumes as any of our neighbors who are doing an equivalent work.

A still further augmented book fund will be necessary to meet the obvious needs.

The Staff which had been lessened in number by three resignations toward the close of 1918 was still further reduced by two withdrawals in 1919. In May Miss Almon felt that her health required more out-of-doors activity and resigned her position as First Assistant. In September Miss Barker resigned her position at the charging desk to be married. No new faces are seen at the Library in place of the above losses. The only changes that have taken place are the appointments to regular staff position of the junior assistants, Miss Kivioja and Miss Files, who now have charge respectively of the Quincy Point and Wollaston Branches.

I cannot close my report without a personal note. For the past year I have felt myself in peculiarly happy surroundings. On the one hand has been a Board of Trustees with a forward look, both exercising a proper oversight of the work and granting me the liberty of action in details which makes for administrative efficiency. On the other hand has been a Staff giving ever new proofs of loyalty as the year progressed. Without a Staff willing to assume increasing burdens it would have been impossible to carry on with nine assistants where fourteen had served before. Without such a Staff it would have been impossible to round out the year with a fifty-one per cent increase in service with only eighteen per cent increase in total expense in the face of constantly increasing prices.

Respectfully submitted,

TRUMAN R. TEMPLE, *Librarian.*

At a meeting of the Board of Directors held January 6 the report of the Superintendent was accepted, adopted and ordered printed as the report of the Board.

REPORT OF THE SUPERINTENDENT OF WOODWARD INSTITUTE

Gentlemen: I submit herewith my annual report as Superintendent of Woodward Institute.

The past year has been one of many changes in the teaching corps due to a condition which is the most serious that has ever confronted the school and which requires the thoughtful consideration and action of the members of this governing board.

It is the same problem that confronts private and endowed schools as a class and which has already closed many such schools—the problem of finances. In a word, the income of the fund remains stationary, cost of operation increases and must of necessity increase still more if the school is to be maintained on any adequate basis.

For some time, the school has closed its financial year with a surplus of a few hundred dollars; the salary scale of the teachers is maintained at a maximum of \$1000. Under present conditions, the salary scale necessary to secure and hold capable secondary school teachers is at least 50% higher. In the Quincy High School, for instance, the maximum salary is \$1650 with an added \$300 allowed and obtainable for advanced professional work.

The conclusion is obvious and unavoidable. Either the salary scale of Woodward Institute must rise to a level dictated by supply and demand of teachers or the school must content itself with a constantly changing teaching corps made up usually of the inexperienced or the less efficient, if indeed even these can be secured in the future.

This condition is one that must have immediate consideration and I suggest that a sub-committee of this board take the matter up for investigation and report to the full board at a later meeting.

The membership and attendance of the school varies little from that of the past year.

The school building itself needs painting and the trustees of the fund are aware of this need.

The class of 1920 left as its gift to the school an excellent copy of "Reading from Homer."

The annual essay prize for this class was awarded to Edith G. Pettee.

Respectfully submitted,

ALBERT L. BARBOUR.

NOTES

1. The figure at the right of each study denotes the diploma points allowed for its successful completion. The figure in parentheses denotes the number of recitations per week when this differs from the number of diploma points.

2. Two foreign languages should not be begun at the same time. A foreign language to be beneficial should be studied at least two years.

3. Every pupil is required to take physical training unless excused upon the advice of a regular physician.

4. Place X opposite the course elected, also before each study elected.

5. A total of seventy-two points is required for a diploma.

6. Report cards are issued every eight weeks.

7. The daily session begins at a quarter past eight and closes at one o'clock.

8. A written request by parent or guardian is required for dismissal during the school session.

9. Cooking and sewing will be offered in the fourth year of the General Course, if ten elect the same.

DEPARTMENT OF ENGLISH

LITERATURE

The first two years of the course in literature are spent in reading carefully, but without attempting detailed analysis and criticism, as much of the world's best literature as the time will allow. The books are selected because they are adapted to the minds of the readers and are worth reading. They include not only English classics, but good translations from the literature of various nations, and cover many subjects. There are three distinct aims in the course: (1) To teach the students to read

intelligently and enjoyably; (2) to develop in them a taste for good literature; (3) to lay a broad foundation for the subsequent study and appreciation of the English classics selected for the third and fourth years. An outline history of English literature, supplemented by a study of English poets, completes the four years' course.

COMPOSITION

The work in composition is correlated with the course in literature — narration, description, exposition, and argument, each taken in turn. The course is designed to aid pupils in expressing themselves clearly and logically in oral as well as in written form. Fortnightly themes are required during all four years. These formal compositions are supplemented by frequent classroom exercises in dictation, letter-writing and outlining. During the fourth year, formal argument is studied, together with preparation and practice in debating.

The pupils are urged to write from their own experience, to write often, and to acquire the habit of using simple, correct, idiomatic English.

DEPARTMENT OF LATIN

- I. Latin Lessons.
Translation of prose selections.
- II. Cæsar — Commentaries on Gallic War, books I-IV inclusive.
Sight reading.
Prose composition.
Grammar.
- III. Cicero — Orations against Catiline, The Manilian Law and Archias.
Sight reading.
Prose composition.
- IV. Virgil, Æneid, books I-VI inclusive.
Sight reading.
Prosody.
Prose composition.

DEPARTMENT OF MODERN LANGUAGES

FRENCH

- I. Pronunciation.
Grammar: Conjugation of regular verbs, and a few irregular verbs.
Simpler uses of tenses and moods.
Syntax.
Memorizing: Prose selections.
Reading: Lectures Faciles, Le Francais et Sa Patrie or La Tache du Petit Pierre.
- II. Dictation.
Conversation.
Paraphrasing.
Composition.
Grammar: Continuation.
Conjugation of irregular verbs.
Uses of tenses and moods.
Reading: de Maistre's Prisonniers du Caucase.
Sandeau's Mlle. de la Seigliere.
Daudet's La Belle-Nivernaise.
Le Gendre de M. Poirier.
Le Voyage de Monsieur Perrichon.
Memorizing: Poetry.
- III. Dictation.
Conversation.
Constant practice in translating into French.
Memorizing: Prose and poetry.
Grammar: Review and continuation of difficult points, especially the subjunctive.
Study of idioms.
Reading: Moliere's L'Avare.
Corneille's Le Cid.
Merimée's Colomba.
Balzac's Eugenie Grandet.
Prose Composition: Francois.

GERMAN

I. Pronunciation.

- Grammar: Declension.
 Conjugation of weak verbs and of the more
 usual strong verbs.
 Simpler uses of tenses and moods.
 Prepositions.
 Syntax.
 Memorizing: Vocabulary for oral and written work.
 Prose and poetry selections.
 Composition: Translation into German.
 Transposition.
 Reproduction.
 Dictation.
 Easy Conversation.
 Im Vaterland, Storm's Immensee.

- II. Grammar: Conjugation of strong and irregular verbs
 and modal auxiliaries.
 Order of words.
 Translation: Schiller's Der Neffe als Onkel.
 Arnold's Fritz auf Ferien.
 Gerstacker's Germelshausen.
 Hillerne's Hoher als die Kirche.
 Wildenbruch's Das Edle Blut.
 Sight reading from easy texts.
 Memorizing: Poetry.

III. Prose Composition.

- Grammar: Continuation of difficult points.
 Conversation.
 Memorizing of German Folk Songs.
 Translation: Gerstacker's Irrfahrten.
 Lessing's Minna von Barnhelm.
 Schiller's William Tell.
 Freytag's Die Journalisten.
 Selected books for supplementary reading.

DEPARTMENT OF SCIENCE

- I. Introduction to Science — to teach the meaning of science as a whole and to develop a taste for science as a preparation for subsequent work by making it both useful and attractive. This is done by including in the course subjects of common interest like the following: How to read a meter; water supply systems; adulterants and simple methods for their detection; color in foods; headache preparations; removal of stains; the camera and photographic printing.
- II. Biology. This is made to include the functions of all living things, both plant and animal, as they relate to man; movement, irritability, nutrition, respiration, excretion and reproduction.
- Birds, reptiles and mammalia from the economic standpoint.
- Health and disease from the standpoint of private and public hygiene.
- Protective medicine and sanitation.
- The relations of insects and animals to the spread of disease.
- Man is the center of the course, and at the close all biological principles studied are applied to the human mechanism.
- In the spring a small herbarium is made.
- III. Chemistry or Physics.
- A class in one subject only will be formed for those electing science in the third year.
- IV. Physics or Chemistry.
- The subject not taken in the third year is offered in the fourth.

DEPARTMENT OF MATHEMATICS

- I. Elementary Algebra.
- II. Plane Geometry,—demonstrations and original work.
- III. College reviews.

DEPARTMENT OF BUSINESS

FIRST YEAR

Commercial Arithmetic. A Review of fundamental processes.
Short methods and drill in business problems.

THIRD YEAR

Bookkeeping. Double and single entry.
Stenography. Principles of stenography.
Typewriting. Touch method.

FOURTH YEAR

Stenography. Practice in reading and writing shorthand.
Typewriting. Transcribing shorthand notes. Copying. Duplicating.
Commercial Geography. A study of commercial and industrial conditions, products and countries.

DEPARTMENT OF PHYSICAL TRAINING

- I. Physical examination. Prescription and individual work, when necessary.
Class work: Free gymnastics, bar work, rings and clubs.
Games: Basket-ball, tennis and outdoor games, when the weather permits.

Simple dancing steps, including the polka and schottische steps. Folk dances.

Physiology twice a week during the year. Practical demonstrations in first aid to the injured.

- II. Physical examination and prescription work. (Class work: Muscle free work as well as apparatus work, which includes bar, rings, wands, dumb-bells and clubs.

Games: Basket-ball, tennis and outdoor games. Folk dancing and fancy steps.

- III. Physical examination and prescription work.

Class work the same as that of the second year, but more advanced.

Games: Basket-ball and tennis.

Advanced folk dancing and fancy steps.

- IV. Physical examination and prescription work.

Class work: Free work and apparatus work.

Games: Basket-ball and tennis.

Advanced folk dancing and æsthetic dancing.

DEPARTMENT OF HISTORY

- I. Ancient History. (a) A preliminary consideration of the origin and races of mankind — their primitive condition, migrations, and progress toward civilization.

(b) A brief study of the extinct civilization of the East.

(c) Greek history to the death of Alexander.

(d) Roman history from the founding of the city to 800 A. D.

- II. Mediæval and Modern History.

- III. American History, special attention being given to the forces which have shaped the Government of the United States and developed its present institutions.

Civil government of the United States.

DEPARTMENT OF MUSIC

The aim of the department of music is to cultivate a taste for good music and to prepare the pupils for intelligent and appreciative work in the further pursuit of the art in its various branches.

The vocal and choral study includes vocalization, solfeggio, sight reading, dynamics, breath control, intonation, enunciation, unison and part singing.

The elementary theoretical work (required) aims to give the pupil a thorough foundation in the elements of music and includes rhythm, meter intervals, the derivation and construction of our present-day tonalities, major, all minor forms and chromatic scale in all keys, triads, chords of the dominant and diminished sevenths and cadences, leading to the study of

Harmony — elective, but strongly advised for all pupils in vocal or instrumental study.

Individual class work, one period weekly.

Vocal and choral work (entire school required), one period weekly.

DEPARTMENT OF ART

The study of art must necessarily be considered as a whole rather than the work of different classes; therefore, the course in drawing is arranged to meet the needs of the individual student and is varied to suit any requirements.

Pupils are not only fitted for continuing their studies in advanced schools, but also to appreciate the best in art.

The general plan is as follows:

Freehand drawing of objects in pencil, and pen and ink, and principles of perspective.

Study of form, light and shade.

Study of design, applied decoration.

Study of color in waters and in oil.

Modeling and casting.

Mechanical drawing.

SEWING

The course in sewing is given as an elective only in the senior year. The aim of the course therefore is an entirely practical one; namely to give a good understanding of hand-sewing, machine sewing and the use of commercial patterns.

The following gives an idea of the kind of work taken up during the year.

1. Sewing bag.
 - (a) Pincushion.
 - (b) Needlecase.
 - (c) Emery.
 - (d) Spool case.
2. Muslin sewing apron with lace and insertion.
3. Cotton chemise or combination.
4. Cotton nightgown or kimono.
5. Woolen dress.
6. Hand-knitted sweater.
7. Hemstitched towel with embroidered initial.
8. Silk shirt waist.
9. White dress skirt.
10. Summer dress.

The regular meetings of the School Board are held at eight
o'clock P.M., the last Tuesday in each month.

REPORT OF SCHOOL COMMITTEE

REPORT OF SCHOOL COMMITTEE

To the Citizens of Quincy:

The Committee has the honor to submit to the citizens of Quincy the annual report of the conduct of the schools for the year 1919.

With the ending of the war, conditions have begun to return to normal but are still far from reaching it. As usual the urgent need in the city is for more school accommodations for the children. We have this fall about 760 more children in the schools than during the last year. The only new school rooms are those in the new building at Squantum which care for about 100 children. The result is that all school buildings are over crowded and every nook and corner is utilized for class room purposes. Rooms for mentally defective children and for those with defective eyesight are not available although urgently required by necessity as well as by law.

The new 18-room school building now being erected by the Government will relieve in large measure the congestion at Quincy Point.

The High School has been conducted on a two-session basis and has produced fair but not altogether satisfactory results. It is to be hoped that conditions in the coming year may be such as to warrant the erection of a suitable addition to the High School quarters.

The question of teachers is also one of prime importance at present. The release from the war work of large numbers of young men has rendered available a certain number for high school work but in the elementary schools the conditions have become most alarming. The excessive cost of existence together with the high wages paid in many commercial pursuits, especially when under Government supervision, have tended to call from the schools many of the teachers. Also the pecuniary inducement to enter the teaching profession has been so slight that the attendance at all normal schools has fallen to a marked degree which means that the natural loss to the teaching profession is not being replenished.

The result has been that rural communities throughout the country are entirely without trained teachers — their places being taken by young girls or former teachers who return to fill in.

The State Supt. of Schools of Maine reports that at present 80 schools are closed for lack of teachers with the probability that 500 schools will be closed next year. Under these conditions the competition for teachers has been very keen and it has been found impossible to keep teachers already in service or obtain new ones when necessary without a material increase in salary. To remedy this condition and as a matter of justice to our loyal teaching force it has been deemed advisable to raise all salaries and to equalize the salaries of those few who have not profited by recent advances.

In this way we hope to be able to retain our good teachers now in service and to offer sufficient inducements to young women to enter the training schools to fit themselves properly for the profession of teaching. Only in this way may the high standard of the schools be maintained and the forces of ignorance and evil now so rampant in this country be overcome.

Realizing the dangers of ignorance among the foreign born of our citizens, and realizing also the importance of Americanization of all these elements, the Committee has maintained the usual evening classes for illiterates and non-English speaking foreigners. Miss Shanahan who has shown exceptional ability in that line has been detailed to take charge of these classes and to organize classes for foreign born mothers of all nationalities as well as factory classes at the Fore River Shipbuilding plant. We are glad to report most gratifying results to date.

In the matter of public health considerable progress has been made. The school dentist at the Coddington School building has done excellent work as shown by the following statistics, condensed from his report which appears on a later page.

Number new patients, 1919	1,002
Total number of visits, 1919	4,317
Total number of operations, 1919	8,266
Total number patients treated since opening clinic	3,119

The school nurses have also done commendable work in looking after the general health of the children.

It would seem that the work of medical inspection might be made more efficient by having one physician who should give his whole time under the direction of the School Committee. The work is so great that the present staff is greatly overworked and can make but slight impression.

The American Red Cross since the termination of most of its war activities is devoting itself to the service of Public Health and in this connection the Quincy Branch of the Red Cross has voted to equip another dentist and pay his salary and also pay the salary for another school nurse for the coming year. This should go far toward improving the health of the children and is a welcome addition to our working force.

The foregoing report, presented by a special committee consisting of Dr. Nathaniel S. Hunting and Mr. Robert E. Foy, was adopted as the Annual Report of the School Committee of 1919.

ALBERT L. BARBOUR,
Secretary.

REPORT OF SUPERINTENDENT OF SCHOOLS

Mrs. Arnold and Gentlemen:

I submit herewith my eleventh annual report as Superintendent of Schools in this city, it being the forty-fifth in the series of such reports.

The past year has been one of adjustment in educational as well as in all other lines of human interest. This adjustment is still far from complete and apparently cannot be brought to completion as readily as had been anticipated before the world war closed.

For at least two years before the close of the war, that great struggle had been a dominant interest in the school room and the shadows of its operations and the demands for universal participation were influencing to a great degree all school activities.

School rooms were depleted of teachers, the curriculum was modified by war demands, and definite tasks and duties connected with the war were assigned to the public schools to perform — all in the interest of the preservation of the government.

It became very apparent at the opening of the present year that although the war had dropped out of the schools' routine as an active interest, the public school system of the country was not to go back to its old pre-war course but was to be modified strongly in the future by new influences and situations which the war had brought forth and which education must take into consideration. In other words, the problems which the war has left behind it bulk almost as large as those of the war itself.

Communism in economic thought and sovietism in political thought, with their novel and many sided appeals, idealistic to some people, selfish and along the paths of least resistance to others, have set up a real menace to representative democracy as exemplified in American life and this menace is one which cannot be overcome by force alone but which must be fought with patience and intelligence. As a consequence among all the subjects which

obtain a place in the school curriculum today none stand out so prominently as the rather indefinite task of teaching the duties and obligations of American citizenship.

This, above all others, is the real problem of the School Committee and the problem is the greater because it is so universal and of so wide application. In other words, we are to make American citizens who shall be worthy of all that is best in American government.

In order to make American citizens, we are to work not only among the boys and girls who have not yet passed the legal school age but also among the men and women of alien citizenship who have come among us to make America their future home.

In undertaking this task we must be quite clear in our minds that teaching children to read, write and speak English, and giving them our school diplomas is not synonymous with making Americans.

We must be equally sure that teaching the illiterate father and mother to read, speak and understand English does not make Americans of them. It is possible in fact to prepare people for naturalization, go along with them and assist in securing their papers and still fail utterly so far as making good American citizens is concerned.

The duty of the schools is much broader than one of academic education and the efficiency of the schools in producing good Americans of alien material cannot be measured by naturalization statistics.

The efficiency of our education is to be measured by the success with which we teach the spirit and the ideals of democracy as practised in a representative form of government.

It is not at all strange that to the foreigner from eastern or central Europe, representative government is difficult to understand and appreciate. It must be confessed that too often we American citizens do not exemplify it at its best and it is quite natural that the foreigners coming from an environment where the word government means autocratic repression should fail to understand the meaning of "liberty under law" and should swing by reaction to a spirit of ill-restrained individualism that bows with ill grace to any law. "Liberty under Law" is the keynote of our citizenship. It is understanding and appreciation of this

motto and acquiescence in it which makes American citizens and to encourage this understanding and acquiescence is the chief task of education.

As has just been said, the responsibility of the School Committee in making Americans is a dual one; first, to train the many children who go through our schools and second, to work with the thousands of adults in our community, typical of all urban communities, who at present know nothing of our language, our customs and our ideals.

In their work with children the public schools have always held high aims and ideals; the war and its aftermath has taught the schools wherein their aims have fallen short. These shortcomings have not been in the nature of our ideals but in the failure to emphasize sufficiently the duties and the obligations that accompany the ideals. The great lesson that the war has driven home is the realization that a republican democracy is not a self-supporting institution but one to which every citizen owes an obligation and only in proportion as the citizens meet their obligations will there be a government worthy the name.

The second task of the School Committee, bringing America into the lives of the adult illiterate immigrants now in our midst, is a task quite similar in purpose to the work with children but very different and most difficult in procedure. For years, the average American community according to its mood has ignored, or tolerated or patronized the non-English speaking foreigner. A careful survey of present day conditions makes it plain that this careless policy has led nowhere except to evil.

Whatever the policy of this nation may be in the future as to the promiscuous welcome of people of all races and tongues coming to our shores, the policy as to those already here is already definitely settled in the direction of earnest effort toward assimilation.

Massachusetts this year passed an Americanization Law providing for work with the adult immigrant in the various towns and cities of the state desiring this co-operation and in recognizing this as a state need has undertaken to bear half the expense.

The national government is already moving toward the same end. As a result, greater progress has been made in the past twelve months toward an intelligent appreciation and handling of this problem than in all the previous years of our national history.

Feeling this new impulse and anxious to do its share in this work, Quincy this fall has sought the co-operation of the state and as the first move has appointed one of its teachers as supervisor to assist me in giving this phase of educational effort the emphasis and the close skilled supervision it deserved. With a supervisor actively in charge we have been able to make an energetic aggressive campaign instead of passively waiting for the foreigner to come to us in our evening schools. In other words, we have gone to work like any business house to arouse interest and to distribute our wares — Americanism.

The results attained in a little over two months have been most promising.

At the outset it was decided to approach the problem in three directions, two of them hitherto untried in this city: — through the evening classes; through factory classes; and through mothers' classes which would reach directly into the home.

Evening classes were opened as usual in the Washington and Willard schools. The opening enrollment was very small but by means of persistent publicity, personal solicitation and intelligent instruction, the attendance has increased steadily since opening, an unusual condition compared with the experience of former years. Classes will be opened also the first week of the new year in the Lincoln building to reach a group there which appears to be interested.

Factory classes were opened in November with the co-operation of the Fore River Company in the service building of that concern and are conducted every afternoon in the week at the close of work. These classes are graded carefully so as to provide not only for the man who understands no English at all but also for those who understand English fairly well but need preparation for their second naturalization papers. These classes should mean much not only for the making of Americans but for industrial efficiency.

The mothers' classes, at this writing seven in number with more in prospect, have been gathered together by the supervisor's personal solicitation and by neighborhood work. They include three different nationalities and meet one or two afternoons each week in the school buildings in their neighborhood.

These different classes have been supplemented by public meetings in various parts of the city; entertainments for the

several nationalities and an earnest effort to make the foreigner feel that the city is genuinely anxious that he make this country his own.

In every way the School Committee and community may feel satisfied with what has already been accomplished and with the promise that the future holds out.

STATE SCHOOL LEGISLATION

These are times when educational history is making rapidly in proportion as the need and objects of universal education obtain wider attention. Each year sees the educational departments of the state and nation formulate a more ambitious programme than the year before and each year sees progress secured more and more ungrudgingly.

The past year has witnessed a wide variety of legislation proposed for action in the State Legislature and although a great deal that was very essential failed of passage, the amount passed has been noteworthy for its importance and its broad scope. It is worth while to mention briefly what some of this legislation is and what it means to this city.

First of all, the Massachusetts School Fund Law provides for the state-wide distribution of funds on a basis which puts a premium on adequate professional preparation for teachers and which establishes a minimum wage for communities to pay.

This distribution of the fund brings to the city treasury of Quincy for the current year over \$40,000.

Its effects in general are already to be seen in the wide-spread movement to increase teachers' salaries by at least the amount received by the community from this fund and usually a little more. Its state-wide effect will be to equalize educational opportunity by raising the standard of teacher-preparation.

Another constructive piece of legislation is Chapter 277.

The important part of this law is as follows:

“SECTION 1. The school committee of each city and town shall, within one year after the passage of this act, and annually thereafter, ascertain, under regulations prescribed by the board of education and the director of

the commission on mental diseases, the number of children three years or more retarded in mental development who are in attendance upon the public schools of its city or town, or who are of school age and reside therein.

SECTION 2. At the beginning of the school year of nineteen hundred and twenty, the school committee of each city and town in which there are ten or more children three years or more so retarded shall establish special classes to give such children instruction adapted to their mental attainments, under regulations prescribed by the board of education."

The immediate result of this law will be the formation of classes for retarded children. In a city of our size, there should be no difficulty in organizing several classes of children who will be benefited by education specially adapted to their mental capacity, and a vast amount of good should result therefrom.

Indirectly the benefit arising from a constant scrutiny of the pupil body to sift out pupils needing this type of instruction will result in the general good. The fact that this law goes into effect immediately calls our attention to our great need of proper accommodations in which to house the classes.

Chapter 229, an Act relative to Sight Saving Classes for Children, is another law in the interest of defective children. Its important sentences are as follows:

"There may be expended annually from the treasury of the commonwealth, under the direction of the Massachusetts commission for the blind, the sum of ten thousand dollars, for the purpose of providing sight-saving classes for children certified by any reputable oculist as fit subjects for instruction therein. The said classes may be organized and conducted, with the approval of said commission, by local school committees."

The School Committee has already accepted the provisions of this Act, has received \$750 as the State's contribution for the first year and is awaiting from the State Commission for the Blind the formation of a group of pupils for this work.

The great value of such a class as this to the children who are members of it is easily apparent.

Of wide importance to education was the passage of the Continuation School Bill. Chapter 311, which abridged reads as follows:

“SECTION 1. (1) Every city and town in which, during a calendar year ending December thirty-first, two hundred or more minors under sixteen years of age are regularly employed not less than six hours per day by authority of employment certificates or home permits, shall, through its school committee, local board of trustees for vocational education, or both, establish at the beginning of the next school year and maintain continuation schools or courses of instruction for the education of such minors under sixteen years of age who are regularly employed not less than six hours per day at home or elsewhere within the city or town, and for such others as may be required to attend as provided in section three.

(2) When a city or town shall have established the said schools or courses, it shall require the attendance thereat of every minor under sixteen years of age who is engaged within the limits of the city or town in regular employment or business under the authority of an employment certificate, or in profitable employment at home under the authority of a home permit: *provided, however*, that upon application of the parent or guardian of the minor involved, instruction in the regular schools shall be accepted as instruction equivalent to that provided for by this act.

(3) The required attendance at said schools or courses shall be at the rate of not less than four hours per week for minors regularly employed not less than six hours per day at home or elsewhere, and at the rate of not less than twenty hours a week for minors who have secured employment certificates, and who are temporarily out of regular employment or business, provided the school or course is in session twenty hours a week, and shall be between the hours of eight o'clock in the morning and five o'clock in the

afternoon of any working day or days except Saturday.

(5) The time spent by a minor in a continuation school or course of instruction shall be reckoned as a part of the time or number of hours minors are permitted by law to work.

SECTION 2. Cities and towns maintaining such continuation schools or courses of instruction as are approved by the board of education as to organization, control, situation, equipment, courses of study, qualifications of teachers, methods of instruction, conditions of admission, employment of pupils and expenditures of money, shall receive reimbursement from the treasury of the Commonwealth to an amount equal to one half the total sum raised by local taxation and expended for the maintenance of such schools or courses of instruction.

SECTION 3. (1) Any minor under sixteen years of age who has been regularly employed in a city or town other than that of his residence, and who is temporarily unemployed, may be required, under conditions approved by the board of education, to attend such a continuation school or such courses of instruction in the city or town of his residence.

SECTION 5. The superintendent of schools having jurisdiction, or a person authorized by him in writing, may revoke the employment certificate or the home permit of any minor who fails to attend the said schools or courses of instruction when so required by the provisions of this act."

Just what the effect of this Bill is going to be on the City of Quincy is not yet clear. Quincy has hundreds of boys and girls between the ages of 14 and 16 with employment certificates or home permits. Very few of the industries of Quincy, however, employ boys and girls under 16 years of age. As a result, there are apparently at the present time only a few more than 200 such minors employed within the city limits. Those who are employed in the city are widely scattered as to place and nature of employment.

The result will be presumably the opening of two or three

rooms in different sections of the city for the carrying on of this type of education.

Here again, we are confronted by an absolute lack of accommodations.

One other change in Section 9, Chapter 42, alters the law to the effect that domestic science hereafter becomes a part of the required grammar school curriculum for girls. This simply makes mandatory what many communities are already doing voluntarily and we shall find it necessary to add cooking to our elementary school course as soon as the needed accommodations are available.

Successful school administration depends to a very considerable extent on adequate accommodations and the problem of securing these accommodations is frequently a most difficult one for a growing community.

Where there is plenty of room for expansion, the inauguration of progressive school activities becomes usually a simple matter. On the other hand this same progress is most difficult when hampered by lack of school rooms.

Not many people realize how rapidly the school population of this city is now increasing. For instance in December of the present school year, the average school membership was nearly 600 greater than in 1919, the equivalent of more than 15 rooms. A study of the property table in the appendix of this report will show only three buildings in the city with unoccupied school rooms, while in many buildings there are more teachers employed than there are rooms.

In a few months time the new school in Ward II will afford a much needed relief. There are other sections of the city, however, where no relief is in sight. Houghs Neck, Quincy Center, South and West Quincy and Ward V have all reached the point where ingenuity is required to house the pupils and where school work is suffering because of increased numbers. One after the other, these sections must be taken under consideration and provided with additional school rooms.

SCHOOL FINANCES

The cost of education increases regularly year by year very much as the cost of all else mounts. Thus far the percentage of

increase has nowhere near approximated the percentage of increase in costs of other lines of industry. All materials used in education have advanced and teachers' salaries have also increased at frequent intervals. The latest increase in salaries by the School Committee to take effect with the new school year, while the largest in amount of any yet made by this city, merely serves to keep our salary level in line with other cities of the state.

CHILD WELFARE WORK

Increasing attention has been paid to the matter of Child Welfare, and the work of the dentist and the nurses has been better systematized than before. Beside our arrangements with the local hospital and the various dispensaries of Boston for treatment of children needing medical and surgical attention and who might not otherwise be provided for, a great deal has been done by local practitioners gratuitously for cases that could not be taken to Boston readily.

Aided by charts provided by the U. S. Government, beginning in September the pupils of the grades have had their weights and heights recorded and special attention has been paid to the pupils who appeared below the norm for their age.

In several schools, arrangements have been made to sell milk at recess time and the demand for this form of lunch has been very large. Entirely aside from providing a nutritious lunch, this has had the indirect and important effect of interesting the children in the right kinds of food for proper nutrition and stressing the importance of a well nourished body.

The report of the school nurses gives a summary of the amount and range of work done by this department.

The amount of work done by the school dentist has been largely increased as a result of systemization and at the present time twenty patients a day are being cared for.

The local chapter of the Red Cross has just notified the Committee that for the next year it will furnish an additional school dentist and dental nurse and provide the necessary equipment for the same and also pay the salary of an additional school nurse. This will be a welcome increase to the service that we are able to give and will be productive of an immense amount of good.

The work which for a year or more past has been done in the direction of remedying speech defects has been interrupted temporarily because of the resignation of the teacher who was carrying it on. We hope in the near future that we may be able to resume this work which had already shown its value.

SCHOOL WORK

The work of the schools for the last 12 months has had no serious interruptions because of fuel shortages or epidemics as in other recent years and has profited accordingly.

An unusually large number of resignations have taken place in the teaching corps, however, due to various causes and a corresponding number of new teachers have been introduced into our system.

In spite of the many changes and the congested conditions under which work in many instances is carried on, steady progress has been made in the direction of putting the schools on a better social basis and allying the instruction with the currents of everyday life. Too much credit for this work cannot be given to the two supervisors, Miss Wesley and Miss Dellicker, who now assist me in the work of supervision and whose province in the system is really that of helping teachers.

It goes without saying that the Superintendent of Schools with the many departments of the school system to direct can give but little time to the actual work of class room supervision. The masters of the various districts with a large amount of administrative work are also limited though not to so great a degree.

The supervisors, however, with no administrative duties to hamper them can give every hour of the day to the duty of helping the individual teachers both by precept and by example and for all teachers who will accept their aid they are most valuable helpers. The young teachers direct from Normal Schools, the teachers longer from school but not yet sure of their strength or of the correctness of their methods and the older teachers of proved strength are all able to profit by the modern viewpoint and the unifying directions which the supervisor is able to give and does give in full measure. The result of their influence has been plainly apparent to me in the school room visiting that I am able to do.

A desire to make some effort to evaluate the result of a teacher's work and at the same time to recompense the progressive teacher for time and effort spent in advance professional preparation led to the adoption by the School Committee of a Rating and Promotion Plan which has already been printed in leaflet form.

Both the rating card and the plan for promotional increases have been based on the best tested theory and most approved practice. They were discussed with a committee of teachers before adoption as well as with the State authorities and they represent a sincere attempt to place a proper estimate on the analyzed characteristics of a teacher's work and to reward in an adequate financial way the teacher who is evidently a studious member of her profession for the time and money expended on her professional development.

Naturally the system has been variously received by the teachers. It is needless to say, however, that there has been little criticism or objection to the plan on the part of teachers who are earnest students of educational problems and who are correspondingly efficient.

The promotional plan of salary increases provided for a possible increase of \$300 above the regular maximum salary on the basis of 90 college hours advanced work for each \$75, this advanced work to meet the approval of the Superintendent and two-thirds of it at least to be of a professional nature.

The promptness with which a considerable number of teachers are proceeding to take advantage of the provisions of this rule should guarantee its success.

HIGH SCHOOL

The growth of the High School in numbers during the year has been most pronounced. Because it has now outgrown its building, the school was divided into two platoons in September, the Freshman class coming in the afternoon at 1:15 and remaining till 4:45. This plan will be continued until new accommodations have been provided.

Notwithstanding the division of the school into groups meeting at different times, the spirit and the work of the school as well as the efficiency of the teaching corps was never better.

It has been possible to increase the number of men teachers in the school and the number should be increased still more as opportunity offers.

The report of the Head Master, Mr. Collins, speaks of the work of the school in greater detail.

MR. A. L. BARBOUR,

Superintendent of Schools.

Herewith I hand you my annual report of progress in the High School.

The comparative figures given below will show that the return to school on the part of large numbers of pupils has begun and we may expect to see hereafter rapid increases in membership. Indeed, I should make note of the fact that the following figures will be increased by the entrance of 200 more pupils in February.

	1919	1918	1917
Whole number enrolled,	1112	1004	1100
Whole number at date	1023	930	1018

Our increase in numbers is only a part of a large movement all over the country. Colleges and schools are full to the doors. The value of higher education is more clearly seen than ever before and financial prosperity is allowing more young people to have the advantages of such education. This means that we shall have boys and girls thronging to us and we have no room for them.

Present and prospective numbers forced us because of lack of room to conduct the school with two sessions during the day instead of one; the upper classes coming in the morning and the entering classes in the afternoon. On the whole, this scheme does not present so many difficulties as might be expected. The administration becomes much more complicated, especially when associated with semi-annual promotions which reached into the school during the past year and the most economical use of teachers' time is perhaps not possible. Moreover, there has been a greater percent of loss from the entering class than usual, but this fact may be due to economic conditions rather than to the hours of the session. The two session arrangement, on the other hand brings

about a continuous use of the building throughout the day and allows the pupils to have a greater range of subjects and more flexibility in the hours of attendance. It is not the best arrangement when everything is considered, however, and should be regarded only as a makeshift.

We have been able this year, because the pupils were attending in two sessions, to use one of the large rooms for the library. This room has been made attractive and the proper atmosphere for such a place has been secured. The library had proved its worth and now it is possible to increase its efficiency greatly. At this time I wish to commend the spirit of co-operation shown by the Public Library of the city. The facilities of this library are placed freely at our disposal and classes are given instruction and information regarding its resources by the authorities in charge. Every possible effort has been made to help us in our work of getting before our boys and girls the resources of books and enabling them to find these resources for themselves. We should also acknowledge with gratitude the gift from the Public Library of a set of Encyclopedia Britannica and Grangers Index to Poetry and Recitations.

Our courses in the theory of music have begun to produce tangible results. At the annual school concert last spring a considerable part of the program consisted of original compositions of pupils in these courses. It will not be long before we shall be able to produce longer and more pretentious works, the original compositions of other pupils. Our concert was not only an artistic success but financial as well. With the proceeds we have purchased orchestral instruments which are loaned to pupils who will agree to study the instruments under competent instructors and to play in the school orchestra. It is our intention to continue this policy in order to furnish greater facilities to pupils interested in orchestral work. During the present year, we have broadened our work in music by offering diploma credits in music studied outside the school under certain conditions regarding lessons and practice and provided an examination is satisfactorily passed at the end of the year.

Because of our good fortune in having several competent instructors, we have been able to broaden considerably our athletic activities. We have been able, too, to connect them closely with

the physical training department of the school. Larger numbers of boys than ever have found some form of sport that interested them and have derived the benefits coming from healthful exercise and from close association under proper conditions. It is to be hoped that the time is not far distant when we shall have sufficient facilities and suitable instruction to extend this work to every boy and girl in the school.

The time has come to take note of the extraordinary rush of pupils into the Commercial Course. This is due, of course, to the great demand for young people trained in this line of work and to the high wages which are obtained in some instances. The fact remains, however, that large numbers of pupils are insisting on this Course when they are absolutely unable to master the commercial subjects included in it. A study of the graduating class shows that a large part of those who have left school before the present year were taking the Commercial Course, and of these about half were failing in the distinctly commercial subjects. A similar state of affairs could be shown to exist in any of the other classes. Moreover, when these pupils go to work, they obtain exactly the same jobs that they would have obtained had they taken any other Course in the school. I believe more of the boys should be in the Manual Arts Course and more of the girls should be in the Household Arts Course. Both of these Courses have fewer subjects requiring outside preparation and thus allow a pupil to concentrate his efforts rather than spread them out too thin. Besides, there is usually opportunity for a pupil to take one or more additional subjects, commercial or otherwise which he knows he can do well. There would be fewer cases of discouragement and failure under these circumstances than there are at present in our comprehensive and intensive Commercial Course. Of course, some of the previous statements could be made about other Courses, for instance, the College Preparatory Course, but pupils here usually soon recognize the state of affairs and get into another line of work. In the Commercial Course, on the other hand, pupils will hang on for years, failing constantly until they finally fall off entirely. It is time pupils and parents recognized conditions and ceased to hold ambitions absolutely beyond the power of attainment.

It would not be proper to close this report without acknowledging the growing interest in the school and spirit of helpfulness on the

part of parents and citizens of the city. Many instances of this could be cited if there were time and space. I should always mention, also, the kindly co-operation and support of the School Committee and yourself. Lacking this, our work would be without successful results.

Respectfully submitted,

ERNEST L. COLLINS,

Head Master.

In concluding this annual report on the condition of our city schools, I cannot make too emphatic the statement that our greatest need at the present time is that of adequate accommodations. The rapid growth of the city, bringing children to us in larger numbers than we can properly accommodate, has caused us to continue putting off many essential projects which we ought to be undertaking and of whose need the Committee is well aware. I am confident, however, that the city will move in this matter as promptly and generously as in the past so that we may amply satisfy the varying needs of all types of children for whose education we are responsible, no matter how diverse those needs may be.

I wish to express to the Committee my appreciation of their hearty co-operation and support in the work of the year and to bear witness again to the faithful devotion of the teaching corps to the great task in hand.

Respectfully submitted,

ALBERT L. BARBOUR.

ANNUAL REPORT OF THE SUPERINTENDENT ON THE STATE- AIDED INDUSTRIAL SCHOOLS

The various vocational schools and classes have had a successful year in every respect.

The attendance at the Industrial Day School remains fairly constant and does not show the increase which should be expected in these times for the particular type of instruction which the school offers. To some extent it is possible that this is due to the somewhat dingy quarters in which the school is held and its rather limited equipment.

The United States Government has recently through the passage of the Caldwell Bill given permission to public industrial schools to purchase machines from the many government munition factories now being dismantled at 15% of the cost price and it is probable that we shall be able to increase our machine equipment by this means as machines become available.

As in previous years there have been several changes in the teaching corps and the tenure of office among industrial school teachers is apparently even shorter than in the common schools.

The Home Making School has had a most successful year and the demand for admission seems to increase annually as the aim of the school and the quality of the instruction becomes better known.

In the new High School addition which is under consideration provision will be made to accommodate this school as a separate unit and without question the attendance will immediately multiply.

It is unfortunate that so many parents and citizens in general still feel that schools of the type of the Industrial and the Home Making School are specially intended for children less mentally gifted than those who attend the High School. Nothing can be farther from the truth. In each of these two schools the same degree of mental alertness is required for efficient work as in the High School.

The evening trade classes for men were held from January through April and again from October through December.

The lines of trade served by these classes and the attendance vary annually with the industrial demand.

As the shipbuilding industry was not so busy at the close of the year as in previous years, there was a marked decrease in attendance.

The practical arts classes for women have more than doubled in number this year, a condition by the way which has been true throughout the state.

At the close of December there are seven classes in dressmaking, one in cooking and two in millinery in operation, with others in process of formation.

An attempt to organize classes in home-nursing proved unsuccessful though they would prove of undoubted worth. Possibly classes of this type would have a broader appeal if organized and advertised on a project basis, with short intensive unit courses.

In connection with this report reference should be made to items appearing in the financial report designated as Smith-Hughes receipts and expenditures.

They are so called from the Smith-Hughes Bill passed by the National Congress appropriating to the several states funds to be used for the extension of vocational training in the towns and cities. The fund allotted to Massachusetts is apportioned among those communities engaged in this work in proportion to their expenditures and can only be used by the communities receiving a share for the increase of teachers' salaries or the development of new work.

In accordance with that basis of apportionment, the amount received by Quincy for the Day Industrial classes was used for the increase of teachers' salaries, while that received for evening classes was expended for new or enlarged lines of work.

The reports of the Industrial and Home Making Schools are appended.

Respectfully submitted,

ALBERT L. BARBOUR.

QUINCY INDUSTRIAL SCHOOL

MR. ALBERT L. BARBOUR,

Superintendent of Schools:

I herewith submit the eighth annual report of the Quincy Industrial School.

We started the year with an enrollment of ninety-three since which time, thirty-four pupils have been added and seventy-five have left making our enrollment at the close of the year fifty-two; but a large percent of the pupils who left did so during the last few weeks of the year giving us an average enrollment of eighty-two.

Distribution of pupils:

Machine Department,	35
Woodworking Department,	33
Electrical Department,	24
Sheet Metal and Plumbing Department,	35
<hr/>	
Total,	127

Owing to the apparent necessity of obtaining work for the summer vacation there was a pronounced tendency among the boys during the last few weeks of school to take the first job that was offered them and not wait for the close of the term.

We have endeavored to keep the boys till the close of the year and then place them in jobs in line with the courses they were taking. While we have met with quite a degree of success our chief difficulty has been lack of age in the boys. There is also a tendency among the employers to keep a good boy rather than to encourage him to return to school.

We feel that we are establishing a good feeling and a fair measure of co-operation with industries of the city.

During the school year we completed jobs for the various schools of the city to the value of \$2270.62, and received in cash from outside parties \$391.08; to this must be added the price of seven desks and seven tables made for the new school at Squantum for which we are to receive \$315.00 making cash receipts of \$706.08.

More room and a large addition to the equipment of the Machine Department is of vital importance to the best success of the school.

Respectfully submitted,

ELIJAH P. BARROWS,

Principal.

HOME MAKING SCHOOL

MR. ALBERT L. BARBOUR,

Superintendent of Schools:

As we come to the close of another year it gives me pleasure to submit the report of what has been a happy and prosperous period for the Home Making School.

Our average membership has been thirty. Comparatively few have left school during the school year and their places have been promptly filled. A class of six entered in February.

The graduating class of 1919 numbered nine. Four of the members entered High School in September, one is now training in a children's hospital, another took up millinery, one works in her father's store, and one in an optician's office; one only remains at home, where her training aids her in making herself useful to those who need her help.

The present school year opened auspiciously with a very promising entering class of seventeen members. Fifteen of the best workers from last year's entering classes returned, making a membership of thirty-two, as large a number as can be accommodated.

Both the students and her fellow teachers regretted exceedingly to find that Miss Ethel Carr had been unable to return. Miss Carr has taught cooking in the school since its establishment, and her work was successful in a very high degree. We count ourselves fortunate in securing so able a successor in Miss Ellen Walls of Brockton.

The co-operation between the teachers and the spirit of com-

radeship between the students do much towards making the school a success.

We shall be unable to receive a February class next year on account of the lack of room to accommodate them. We confidently look forward to the time when we shall have more convenient quarters and be able to open our doors to more pupils.

A sale of the work of the sewing and millinery classes was held before Christmas this year. It was a success in a financial way, and also gave more people an opportunity to become better acquainted with the work of the Home Making School.

I wish to take this opportunity of thanking all who have been interested in us and who have done so much to help us in many ways during the past year.

Respectfully submitted,

ELIZABETH M. DOUGLAS,
Principal.

LIST OF GRADUATES

ELEMENTARY SCHOOLS

January 31, 1919

ADAMS SCHOOL — 14

George Fotheringham
Albert Gardner
Marion Glidden
Beatrice C. Goldbranson
Sidney W. Grossman
Elba Marion Larson
Catharine M. MacLeod

Ruth M. Mahoney
Irene Mary Murphy
Gunnar E. Olson
Helen R. Shepherd
Dominic Tantillo
Erik Wendelin
Winifred Vera Worsdell

ATHERTON HOUGH SCHOOL — 20

Raymond Tracy Adams
Edith May Bearse
Lauris Heber Benn
Mozart Benn
Fred Clifton Cahoon, Jr.
Helen Elizabeth Cleary
Lester Benjamin Comeau
Anna Grace Goulart
Alfred George Helfrich
Lillian Marie Hennessey

Alice Una Holbrook
Dorothy Alice Jackson
Adelbert Lyman Johnson
Edith Evelyn Kilcup
James S. Murray
Kingsley Wilson Patterson
Edmund Alexander Root
Georgia Frances Smith
Ethel May Urann
Harry Edward Willis, Jr.

CODDINGTON SCHOOL — 15

Gunhild Frideborg Ahlstrom
Carl Sidney Anderson
Fenner Smith Barbour
Gertrude Fritz
Muriel Jean Goudey
Pearl Richmond Johnson
Rudolph Alexander Lofgren

Dorothy Mary MacArthur
Abraham Sigmund Pactovis
Eleanor Brooks Ricker
Findley Stewart
Donald Irving Stowe
Maxine Louise Swingle
Marie Celeste Wood

Ellsworth Cady Loud

CRANCH SCHOOL — 6

Esther Margaret Holteen
Alfred Richmond Johnson
Evelyn Frances Reilly

Margaret Irene Bernadett Riley
Russell John Magnus Steele
George Harold Troupe

DANIEL WEBSTER SCHOOL — 20

Herbert Berman
Elsie M. E. Bonnavier
Jennie Carpet
Joseph Cohen
John F. Desmond
Lillian Fish
Daniel J. Ford
Rose Kapsis
Frank A. Leming
Dora Lubarsky

Clara B. MacKenzie
George McLay
Winnifred D. McQuinn
Ida Newman
Clara I. Sclarenco
May W. Scott
Annie Silverman
Jack Sussman
Esther Tower
Marion J. Williams

FRANCIS PARKER SCHOOL — 23

Marion C. Bagg	H. Lloyd Keefe
Robert B. Bibber	Mary C. Lundy
Gertrude E. Blood	Agnes C. Martin
Virginia F. Chase	Alice G. Nickerson
Anna S. Coburn	F. Milton Osgood
Richard H. Cole	Alice Rennert
Ruth E. Dennison	William H. Turner
Joseph L. Donahue	Irene E. Shay
Mary V. Driscoll	Joseph H. Wheeler
Mildred E. Eastman	Wilhemina M. Wiley
Richard H. Folsom	Kenneth R. Zwicker
Robert W. Folsom	

GRIDLEY BRYANT SCHOOL — 10

George Adams	Lawrence Anthony Forde
Catherine Agnes Clarke	Lucia Pelligrini
Gertrude Corcoran	Josephine Perette
Francis Cornelius Crowley	Nelson Reed
Louise Ferrazzi	Kathleen Violet Radcliffe

JOHN HANCOCK SCHOOL — 15

Ethel Brown	James McMillan
Richard Wilfred De Boer	Wilhelm Julius Nelson
Elizabeth May Fraser	Stephen Briggs Newton
Edith Isabella Johnson	Michael Angelo Russo
Edmund Rungna Johnson	Pauline Stein
Edward Thomas Lewis	Robert William Syvanen
Elmer Harley Lewis	Uno Michael Tuomokoski
Charles Oswald McDonald	

LINCOLN SCHOOL — 19

Adelaide Mary Balducci	Laura Perruzzi
Norma Berrini	Everett Russell Peterson
Joseph Nicola Casna	Sydney Everett Richards
Frances D'Andrea	David Russell Smith
Tyyne Maria Flinck	George Rudolf Thompson
Alice Gronberg	Martha Amanda Tikkanen
Alden Yngve Gustafson	Ovia Tikkanen
Elisha Goodwin Johnson	Tosca Vanelli
Muriel Kain	Edith Lord Vealie
Guido Marini	

MONTCLAIR SCHOOL — 11

Thomas H. Adams	Mary V. O'Leary
Ethel L. Bent	William L. Paul
Charles E. Cann	Albert E. Rhodes, Jr.
William J. Duane	George G. Saylor
Marion Hooley	Jennie G. Tirrell
Clarence M. Lind	

QUINCY SCHOOL — 17

Wayne Belding
Mary Louise Cavanagh
Lois Corinna Coombs
Grace Lillian Fairbairn
Arthur Williams Fallis
Harold Damon Gurney
Evelyn Louise Hersey
John Alva Houston

Marietta Moore Luke
Gladys Louise Mellett
Evelyn Josephine Phelan
Margaret Henderson Phillips
Edward Johnson Ross
Edward Francis Savage
Alanson Perley Stevens
Mabel Alice Young

Frederick James Kendall

WASHINGTON SCHOOL — 9

Edith Mary Bonnivier
Ella Mary Cockerill
Anna Bertha Coffman
John Doherty

John Francis Donovan, Jr.
Mildred Hammett
Ruth Agnes Hoyle
Hyalmar Johnson

Margaret Veronica Murphy

WILLARD SCHOOL — 15

Frank Louis Bonafini
Ambrose Napoleon Brunet
Charles Joseph Casagrande
Arthur Maurice Drohan
Charles Louis Ferrazzi
Tyyne Hervimaki
Carl Henry Hill

Toivo John Honkonen
Lillian Jennie Johnson
James Edward McDermott
Palmina Lucy Quintiliani
Annie Theresa O'Brien
Daniel Arthur Toombs
Myrtle Violet Williams

Henry Hokkanen

WOLLASTON SCHOOL — 15

Eleanor Akin
Eva Maud Anderson
Mildred Josephine Anderson
Earle Pierce Bassett
Emily Lucille Boshan
Edna Alice Brown
Margaret Campbell

Hazel Martha MacAdams
Paul Boyd Morrison
John Giveen Reed
Emily Nixon Stewart
Harvey Alexander Taylor
Elsie Mason Thurber
Rodney Parker Whittam

Evelyn Florence Johnson

CLASS OF 1919

QUINCY HIGH SCHOOL, WEDNESDAY, JUNE 25

Trescott Tupper Abele
 Helen Alden
 Rebecca Asnes
 Winefred M. Francis Austin
 Ella Julia Axberg
 Lucy Mather Bagg
 Marion Frances Bailey
 Gordon Thaxter Banks
 Ruth Evelyn Barnard
 Robert Arthur Barrows
 Laura Isabel Bassett
 Mildred Elizabeth Bishop
 Doris Frances Bissett
 Ernest B. Bizzozero
 John Lawrence Blanchard
 Amy Eleanor Blomquist
 Robert Henry Cahill
 Dorothy Etta Cain
 Euphemia I. Cheverie
 Harold Ira Cohen
 Edith E. Colbert
 Marjorie Cole
 Lillian Grace Craig
 Harvey Adams Curtis
 Helen Curtis
 Lewis Nichols Curtis, Jr.
 Gertrude Ellen Dahl
 Anna Margaret Dahlen
 Alice May Dawson
 Walter Arthur Dean
 Leontina C. Della Lucca
 Lawrence E. Dewey
 Alice Marguerite Dixon
 Frederick Joseph Djerf
 Vivian Dresser
 Elizabeth Frances Fitzgerald
 Joseph P. Flaherty
 John Patrick Flavin
 Roland B. Forsyth
 Robert Cornelius Foye
 Alfred Gargaro
 Mildred Ethel Geddes
 E. Spencer Gray
